image intensifiers, electronic amplifiers, power supply apparatus, light guides; indicators, apparatus and equipment and installations composed thereof, and systems constructed by linking the aforesaid installations, for conducting, distributing, transforming, accumulating, regulating or controlling electric signals, in particular for surveying, monitoring, detecting, processing, evaluating, analyzing and displaying radio signals; apparatus for analyzing signals, classifying, decoding, demodulating, recognizing processes, recognizing patterns, evaluating patterns and for automating processes for detecting and processing radio signals; apparatus for detecting, evaluating, recording, sending, receiving, transforming, distributing, transmitting or reproducing data, speech and/or images; software for all the aforesaid goods; apparatus for storing, converting, processing and transmitting data, information and signals; telecommunications terminals; pagers; electronic apparatus for satellite telecommunications, in particular airborne; computer software (recorded programs); software (recorded programs) for providing access to an electronic message transmission service; remote controls, video recorders, cassette recorders, monitors, radios, portable camcorders with integrated video recorders or DVD burners, cameras, photographic apparatus; television sets; keyboards, mice, calculators, printers; computers; computer memories, electronic memories, modems, computer peripheral devices; screens; interfaces (information technology) and microprocessors, in particular for accessing multimedia databases; database servers; printed circuits; on-board wireless and satellite data networks, namely signalling apparatus; multi-platform interfaces, namely interfaces (interface apparatus and computer programs); extension systems (hardware and software) for external airframe equipment; electronic media, in particular cassettes, USB flash drives, blank sound recording discs, blank video discs and blank CD-ROMs, audio, video and sound recording discs; compact discs, optical discs and DVDs containing navigation and flight instructions for helicopters, rotorcraft and drones; computer security systems; radar apparatus, antennae, transmitters and receivers, converters, responders; locating, detecting, control and cartography equipment; electric and electronic equipment for radiolocation and radio navigation; airborne detecting and ground monitoring installations with radar imaging; navigation apparatus for use at sea, on land, in the air and in space; guidance and navigation systems; checking (supervision) apparatus for flight parameters, in particular software (recorded programs) for assisting

with the navigation and control of helicopters, rotorcraft and drones, antennae and communications systems for air vehicles; apparatus for monitoring flight parameters, and in particular automatic altimeters and ground stations or airborne stations equipped with the aforesaid systems; communications equipment, namely multiplex communications systems, radio and television transmission installations for recording, displaying and transmitting all properties and flight parameters of helicopters, rotorcraft and drones, for developing, manufacturing, controlling, flying, steering, navigating, monitoring and securing the aforesaid helicopters, rotorcraft and drones; recording systems for apparatus for locomotion by land, air or water; automatic flight control installations; altitude and speed measuring stations; adaptable software (recorded programs) for locating air vehicles with the aid of inertia values; systems for creating electric commands and electric signals, namely electric signal transmitters, character generators; apparatus for recording parameters and data; computers, flight phase analyzers, electronic equipment for counting, managing, locating and identifying vehicles; electronic equipment and systems (hardware and software) for directing combat operations; software (recorded programs) for the bringing together of elementary digital objects depicted in the form of real, moving objects on the basis of cartographic data and algorithms of the examined movements of the aforesaid objects; software (recorded programs) for the bringing together of representative data from moving objects; area observation and monitoring systems featuring radar installations on board air vehicles; transmitters of radio waves, ultrasound, sound or infrasound waves; optical or infrared transmitters, tuners, radio transmitters and receivers, encoders and decoders, digital sound and image data transmission apparatus, remote controls; software (recorded programs) for recording and processing data for controlling, flying, steering, navigating, monitoring and securing air vehicles, rotorcraft and drones, character and alarm generators; software (recorded programs) for displaying flight logs, ground stations for processing flight, steering, navigation and monitoring data from aircraft, rotorcraft and drones, remote transmitters for the transmission of information between air vehicles, rotorcraft or drones and at least one ground station; computers and electronic card readers; software (recorded programs) for calculating, reading and applying cartographic data; electronic communications, navigation, collision warning and pilot assistance systems (hardware and software) for manned and unmanned land or air vehicles; electronic mission systems (hardware and

software) for land or air vehicles for assisting crew with regard to executing their mission, in particular for displaying the current state of the mission, said current state being ascertained through communications systems and recorded information and being displayed; electronic checking (supervision) and management systems (hardware and software) for land or air vehicles, in particular flight management systems and flight monitoring apparatus; electronic map display systems (hardware and software) for land or air vehicles for graphically displaying the position of the vehicle; electronic recording systems (hardware and software) for land or air vehicles for recording vehicle data and mission data; hardware and software for the aforesaid systems, in particular sensor, computer, database, display, recording and bus systems; sensor-assisted, in particular electrooptical, Lidar and radar systems (hardware and software) for air or land vehicles for recording environmental data, in particular topographical altitude data, distance data and obstacle data, in the air and on the ground; apparatus for capturing, evaluating, recording, sending, receiving, transmission or reproduction of data, sound or images for the aforesaid goods; computer software and computer hardware for all the aforesaid goods, included in this class; components for all the aforesaid goods, included in this class; control stations (electric and electronic) comprising application-specific computer software, computer hardware and communications apparatus for mission preparation, mission execution and mission follow-up for manned and unmanned air vehicles; application-specific computer software and computer hardware for use in the aforesaid control stations (electric and electronic) for mission preparation, mission execution and mission follow-up for manned and unmanned air vehicles; radar apparatus and radar systems; passive radar apparatus and passive radar systems; speed detectors, location detectors (for determining the azimuth, distance and elevation of an object), motion detectors; radiofrequency apparatus; transmitters of electronic signals; radio, radar, television, telegraphic, telephone, testing, measuring and checking (supervision) apparatus and instruments; antennae; signal generators; direction finding and position finding apparatus; electronic equipment for simulating and analyzing radar installations; spare parts and accessories, and software and firmware for all the aforesaid goods; apparatus, instruments, equipment and software for the electronic securing and monitoring of borders and protected areas; satellite communications systems, sensor towers for monitoring purposes, alarm systems, internet and computer security systems, satellite monitoring

systems, air monitoring systems; software for planning and managing requests with regard to intelligence gathering; hardware and software for surveillance and monitoring of military forces and military and non-military services and agencies; ground systems consisting of control apparatus for satellites; radio transmitters and receivers; on-board electronic systems consisting of equipment for satellites and space vehicles, in particular avionics and service modules; measuring, control, observation and communications apparatus; ground systems (hardware and software) for operating and controlling satellites; radioelectric transceivers and radios; scientific, nautical, surveying, photographic, cinematographic, optical, weighing, measuring, signalling, checking (supervision), life-saving and teaching apparatus and instruments; data processing apparatus and computers; data carriers; transmitters (telecommunications), electric wires, fibre-optic cables, electronic apparatus and instruments, electronic storage media; observation instruments and systems consisting thereof; infrared monitoring and locating installations and systems consisting thereof, in particular localization systems; equipment for secure observation and surveillance and systems consisting thereof; airworthy monitoring equipment and systems consisting thereof, day/night monitoring equipment and systems consisting thereof; coders or decoders, digital sound and image data transmitters; radar antennae, satellite transmitters and receivers, power converters and transponders; electronic equipment for civil and military purposes; equipment for electric and electronic tracking, capture and monitoring, and for determining and locating geographical locations; equipment for radar image-based airborne ground monitoring and surveillance, and systems consisting thereof; steering and navigation equipment and systems consisting thereof; fixed or portable computers, telecommunications apparatus and equipment; computer servers, servers and data storage apparatus, computer workstations, modems; wireless and satellite-based hardware and software for on-board data networks; multi-platform interfaces, including hardware and software therefor; equipment for processing geographical information and systems consisting thereof, in particular satellite systems, GPS; apparatus and equipment for capturing, compressing, transmission, analysis and reproduction of satellite images and aerial photographs; equipment for transmission of images through digital radio and systems consisting thereof; hardware and software (recorded/stored programs) for determining the position, observation and monitoring of specific geographical locations; monitoring and control hardware and software

(recorded/stored programs); position de-termination, observation and monitoring equipment, and systems consist-ing thereof, for specific geographical locations; storage media for data and user terminals (computer terminals) for position determination, navigation, for navigation databases, for radar or satellite navigation, radio navigation and for subsequent applications; mapping information (hardware and software), safety and emergency equipment, instruments and apparatus, research (other than for medical purposes) and life-saving equipment, in-struments and apparatus; electric or electronic instruments and apparatus for reception, processing and/or transmission of navigation signals and elements and components therefor; hardware and software for telecom-munications and radio networks, hardware and software for digital tele-communications networks; electric apparatus (hardware and software) for providing telecommunications and radio networks through wire, cable, optical fibre, radio or satellite; apparatus for communicating, transmission and reception of speech, images, data and multimedia data; network ap-plications, in particular gateways, and systems consisting thereof for inter-net gateways; devices and equipment and apparatus consisting thereof for the transmission of messages, information, data, sound and images through waves, cable, optical fibre, telephone, satellite, terminals, tele-communications networks and computer networks; telecommunications and desktop automation terminals for military applications; software pro-grams in a computer-readable format, provided on magnetic or optical media or in a downloadable format for use with the aforesaid goods; soft-ware programs for secure communications and for facilitating the authen-tication, examination, recording and analysis of business relations and transactions using a system of controlled access rights and notifications, equipment and stations consisting thereof for satellite telecommunications, in particular in air vehicles; software (recorded/stored programs) for communications and radio communications networks for the transmission of data through wire, cable, optical fibre, radio or satellite; software (recorded/stored programs) for encryption and decryption; simulation, model creation, testing and experimental software; servers for modelling, simulating, testing and experiments in connection with civil and military operations; software for planning, capturing, processing and disseminating intelligence information and data, solely in the fields of secret service information and geography, for defense and security purposes; software (recorded/stored programs) for providing access to an electronic messaging service;

transmission security software for intranet and internet data terminals, operating stations and terminals for presenting information in graphic and text form; equipment for the secure processing of information; secure telecommunications devices and equipment consisting thereof; software for synchronizing secure data between a remote data station or a remote device and a fixed or remote data station or a device of this kind; electric and electronic instruments and equipment (audio and visual apparatus) for displaying reports, analysis and measurement results, in particular in the form of graphs, tables and charts, being the outcome of analyzing and monitoring the performance of navigation signals and/or data; computer software (recorded/stored programs) for examining and identifying space segments in two or three dimensions; sensors and communications apparatus and equipment; industrial geoproduction systems, consisting of software and hardware for a digital process chain for generating satellite, aerial or terrestrial images and 3D data; software for the field of satellite imaging and data; data processing equipment, in particular using satellites; computer software for processing and analyzing photographs, including aerial and satellite photographs; computer software for stereographic projections, digital terrain models, orthophotos and thematic maps; database management software, including for stereographic reproduction, for storing, preparing, processing and analyzing drawings, depictions, photographs, maps, aerial and satellite images and surface models; apparatus for processing, analysis, reproduction and storage with the aid of images generated by satellites; computers and computer software for industrial purposes, namely for the fire service and the government, in connection with op-erational systems, client management, installation management systems, geographical information systems, CAD systems, real-time display systems and mobile systems, and the configuration thereof, for use with suitable computer hardware; database management software, in particular for stereographic reproduction, for storing, creating, processing and analyzing drawings, images, photographs, graphic representations, aerial and satellite images and surface models; data carriers for computer software (computer programs), computer files and software packages, for stereographic reproduction and for storing, creating, processing and analy-zing surface models, images and photographs; satellites; satellite navigation systems; satellites for scientific purposes, in particular satellites for terrestrial observation and radar satellites; remote control apparatus; aerial imaging sensors; radio transmission installations; electric and electronic apparatus for generating

digital topographical models; databases containing digital topographical models (software); software packages for processing and evaluating photographs, including aerial and satellite images; software packages for stereographic reproduction, for creating digital terrain models, for orthophotos and for thematic maps; computer files and software packages featuring geographical, geological, cartographic and topographical content; computer files and software packages featuring terrain representations and digital maps; satellites; satellite communications apparatus and instruments; terminals for satellite communications; communications apparatus and instruments; telephone apparatus, remote writing and remote copying apparatus and instruments; data processing and transmission apparatus and instruments; computer terminals and keyboards, screen units; printers; antennae; communications and transmission systems, apparatus, instruments and computer software and peripheral devices for providing and managing news, information about weather, sporting events and other information applications, including the internet; systems consisting of computer hardware and software, communications and transmission apparatus and instruments for facilitating real-time communications between users and providers via the internet; computer software for facilitating and for operating business systems, including business systems via the internet and the world wide web; computer software for simulating and analyzing satellite communications systems; computer software programs for operating and managing satellite communications systems; television, audiovisual, video, sound recording and sound reproduction apparatus and instruments; apparatus and instruments for storing, recording, reproduction, retrieval, reading and transmission of data, images, sound and other information; apparatus and instruments for broadcasting, transmission, reception, disseminating, duplicating, encoding and decoding of digital and satellite signals; parts and components for all the aforesaid goods; daytime and night-time sights and attachments and targeting apparatus for observation purposes; electronic apparatus and software for target recognition, target identification and target tracking, and for fire control and ballistic correction; sighting apparatus with gyroscopically stabilized biaxial sighting lines, photogrammetric film cameras; electrooptical surveillance and observation apparatus and systems, and software therefor, in particular evaluation and display software for use on land, on water, in the air and in space; optical and optoelectronic components and assemblies for con-

trolling self-propelled weapons carriers for use in the air, on water and on land; optical and optoelectronic components for controlling rockets; peri-scope systems for use in air, water and land vehicles, submarine periscopes; optoelectronic mast systems; optoelectronic mast systems for submarines, including control consoles, and software required therefor, in particular image processing software; apparatus for line of sight direction stabilization on the basis of regulating signals from mechanical, optical or fibre-optic gyroscopes, accelerometers of from image evaluation algorithms; periscopes with direction-stabilized line of sight for use on land, on water and in the air; gyroscopically and inertially stabilized or scene-based stabilized commander's periscopes and electrooptical observation, monitoring and targeting systems, and driver vision systems, driver assistance systems, situational awareness systems for armored vehicles; optoelectronic sensors for air defense systems featuring TV assemblies, thermal imaging apparatus, laser rangefinding apparatus and laser target illuminators (laser designators); laser rangefinders, laser target illuminators and laser warning systems; laser altimeters, in particular including for use in space; electrooptical surveillance cameras and vision equipment, and stabilized multi-sensor platforms for manned and unmanned air vehicles, land vehicles and water vehicles; tactical and strategic observation, monitoring and surveillance apparatus with multi-sensor equipment for air vehicles; missile warning sensors for use on water, on land and in the air; laser warning systems; thermal imaging apparatus and systems and daytime vision apparatus and systems for use on land, on water and in the air; imaging electrooptical apparatus and systems in the near infrared (NIR) and short-wave infrared (SWIR) for use on land, on water and in the air; thermal imaging apparatus and imaging apparatus in the near infrared (NIR) and short-wave infrared (SWIR) for aircraft, helicopters, battle tanks, armored personnel carriers, armored scout vehicles and other armored vehicles and ships; gyroscopically stabilized commander's periscopes with integrated thermal imaging apparatus; submarine periscopes and optoelectronic mast systems with integrated laser rangefinding, laser target illuminators and integrated thermal imaging apparatus and integrated line of sight direction stabilization, in particular with an integrated image processing platform and high-level algorithms, including image fusion and tracking; electrooptical observation and monitoring systems, stationary and mobile, for applications on land, on water, in the air and in space; software and programs for operating and controlling apparatus and systems, and for data

and image processing; sensors for position regulation and orbit control, in particular for satellites, optical instruments for terrestrial observation and for observing other natural or technical objects in space, star and solar sensors; rendezvous and docking sensors for aerospace, multispectral im-aging apparatus; focal plane devices (optics); electronic apparatus and computers for aerospace; inertial and gyro sensors; power generation apparatus; solar installations; apparatus for recording, transmission, processing or reproduction of sound or images, and software therefor for controlling, recording, transmission, processing and image processing or data; machine-readable data carriers; microwave switches, DC converters, laser transmitters and receivers, electronic amplifiers, power amplifiers; satellite transmitters and receivers for analogue and digital signals; data processing apparatus and computers, and peripheral devices, disk drives, scanners and screens therefor, and installations consisting of data processing apparatus and computers; keyboards and printers; computer programs for providing real-time, multimedia, multi-sensor and multi-user communications via computer networks; magnetic data carriers; communications systems and systems for receiving and reproducing terrestrial signals and satellite signals, consisting of electric and electronic apparatus and instruments for communications, keyboards and printers; computer programs for providing real-time, multimedia, multi-sensor and multi-user communications via computer networks; magnetic data carriers; laser communications terminals; hardware and software for sensor data fusion, including databases and the object world; hardware and software for augmented reality and virtual reality applications, including presentation media, monitors, tablets and data glasses; hardware and software for displaying maps and positions; jammers; antennae; signal generators; direction finding and position finding apparatus for ships, land vehicles, aircraft, helicopters and drones; electromagnetic, ultraviolet and infrared-based self-defense systems for ships, land vehicles, aircraft and helicopters; apparatus for guided and directional infrared counter measures (DIRCM); directional IR and lasers (DIRCM) for defending against missile attacks on airborne platforms; databases for identifying electronic threats; apparatus and systems for signal encryption and decryption, and test apparatus therefor; IFF (identification friend or foe) receivers (transponders) on airborne platforms; IFF query systems (secondary radars) on ships and land-based platforms; electric, electronic and optical apparatus and systems consisting thereof for assistance in conditions of

restricted visibility and for detecting enemy fire; antennae, transmitters and receivers for wide-band data transmission; hardware and software for mission planning and evaluation for airborne platforms; hardware and software for capturing maintenance and diagnostic data from airborne platforms; information technology and audiovisual apparatus; communications equipment; antennae and antenna installations being communications apparatus; apparatus for line of sight stabilization; Satcom antennae, data loggers; apparatus for recording conversations; detectors, rangefinders, rangefinding apparatus, binoculars, spyglasses, telescopes, filters (photography), photovoltaic cells, computer programs, global positioning system (GPS) apparatus, downloadable computer programs, calipers, directional compasses, correcting lenses (optics), lasers (not for medical purposes), close-up lenses, surveyors' levels, lenses, instruments containing eyepieces, eyepieces, optical apparatus, instruments and equipment, periscopes, prisms, transmitters of electronic signals, stands for photographic apparatus and cameras, telescopes, surveying apparatus, sighting telescopes; electronic and optical spyholes for doors and peepholes (magnifying lenses) for doors; helmet target tracking systems and helmet display systems for use in air, land and water vehicles; multispectral landing aids (optical apparatus and instruments) for helicopters; laser target illumination systems for combat aircraft; sensor platforms for military air vehicles equipped with electrooptical and radar sensors; driver vision apparatus; boresight equipment, namely optical and electrooptical adjustment equipment, residual light intensifiers; storage bags and cases for the aforesaid goods, and software for all the aforesaid goods; systems consisting of monitoring instruments and apparatus to be fitted on fences; laser rangefinders; apparatus for target marking (targeting pods); UCM (uncooled modules) being night vision attachments, including software and map/position display; computer software for encryption, electronic encryption apparatus in the name of Airbus DS Optronics GmbH, Carl-Zeiss-Strasse 22, 73447 Oberkochen, Germany Address for service: Hahn & Hahn, Hahn Forum, 222 Richard Street, Hatfield, 0083 Pretoria
