video, and audio-visual content using metadata tags; Application programming interface (API) for use in developing AI (artificial intelligence) platforms, namely, bots, virtual agents and virtual assistants; Computer software for organizing events; Computer software for sending and receiving electronic messages, graphics, images, audio and audio visual content via the internet and communication networks; Downloadable software, namely, instant messaging software, file sharing software, communications software for electronically exchanging data, audio, video images and graphics via computer, mobile, wireless, and communication networks; Computer software for personal information management, and data synchronization software; Computer software for use in facilitating voice over internet protocol (VOIP) calls, phone calls, video calls, text messages, instant message; Communication software and communication computer hardware for providing access to the Internet; Electronic display screens; Smart glasses; Computer peripherals for remotely accessing and transmitting data; Computer peripherals for mobile devices for remotely accessing and transmitting data, namely, peripherals worn on the head for mobile devices for remotely accessing and transmitting data; Computer hardware for displaying data and video; Computer peripherals for displaying data and video; Computer peripherals for mobile devices for displaying data and video, namely, peripherals worn on the head for mobile devices for displaying data and video; Computer software to enhance the audio-visual capabilities of multimedia applications, namely, for the three-dimensional rendering of graphics, still images and moving pictures provided as updates for or in combination with head-mounted display screen devices; Computer software, namely, software development tools for the creation, debugging, and deployment of software applications for smart glasses, near eye displays, head mounted displays, and smartphone; Digital video eyewear; Downloadable computer application software for mobile phones, smartphones, computers, tablets, smart glasses, digital video eyewear, wearable digital electronic devices, namely, glasses, goggles, and headsets, head mounted displays, near eye display systems, communications networks, cloud computing services, and computer systems for communicating between the devices, networks and services; Downloadable computer application software for smart glasses, near eye display systems, and head mounted displays for displaying icons, determining and responding to user selection of icons, controlling connections to and communication with other devices, networks, and systems, operating a camera

to record and display images and audio visual files, organizing digital image and audio visual files, controlling microphones, controlling sound level of built-in speakers, transferring computer files between the smart glasses, near eye display systems, head mounted displays and other devices, networks, and systems, controlling user notifications, controlling a touchpad, controlling and obtaining data from sensors in the smart glasses, near eye display systems, and head mounted displays, including accelerometers, barometric, temperature, tilt, tip, and yawl sensors, head orientation sensors, and GPS receivers, controlling the speed of the CPU, and sensing and displaying the battery charge level, and displaying, capturing, recording, and streaming data, images, and audio visual content in standard reality, augmented reality, and mixed reality environments; Glasses with the function of wireless communication; Software to view virtual images in creating augmented reality; Head mounted video display; Smart glasses with wired and wireless audio capability; Wearable digital electronic devices; Wearable digital electronic devices, namely, glasses; Computer software for setting up, configuring, operating and controlling wearable devices, computers, and computer peripherals; Electronic communication equipment and instruments, namely, mobile and wearable digital electronic devices for sending and receiving of text, data, audio, image, and video files; Wearable computer hardware; Wearable computer peripherals; Computer software for accessing, monitoring, searching, displaying, reading, recommending, sharing, organizing, and annotating news, sports, weather, commentary, and other information, content from periodicals, blogs, and websites, and other text, data, graphics, images, audio, video, and multimedia content; Computer software for creating, authoring, distributing, downloading, transmitting, receiving, playing, editing, extracting, encoding, decoding, displaying, storing and organizing text, data, graphics, images, audio, video, and multimedia content, electronic publications; Application programming interface (API) for computer software for developing and creating virtual reality, augmented reality and mixed reality experiences; Application programming interface (API) for computer software which facilitates online services for social networking and for data retrieval, upload, download, access and management; Application programming interface (API) for software which facilitates online services for social networking and for data retrieval, upload, download, access and management; Application programming interface (API) for use in building software applications; Augmented reality software; Augmented reality software for interactive

entertainment; Augmented reality software for navigating an augmented reality environment; Augmented reality software for object tracking, motion control and content visualization; Augmented reality software for operating augmented reality headsets; Augmented reality software for users to experience augmented reality visualization, manipulation and immersion; Computer application software for smartphones and mobile devices in the fields of fitness and exercise featuring personal training services, coaching, workouts and fitness assessments; Computer application software for use in connection with configuring and controlling wearable computer hardware and wearable computer peripherals; Computer operating system software; Computer operating systems; Computer search engine software; Computer software; Computer software and computer application software for mobile phones and personal digital devices that provides a fitness assessment and fitness score by comparing previous athletic performances and fitness levels with future athletic performances and fitness levels, and provides advice and customized workouts for improving in specific areas of a particular sport or fitness activity; Computer software and computer application software for mobile phones and personal digital devices that monitor, track, and compare sport activity and fitness level; Computer software and computer application software for mobile phones and personal digital devices that evaluates a user's fitness level and athleticism, and provides fitness scores; Computer software and computer application software for mobile phones and personal digital devices that provides tips, coaching, and personalized workouts, to improve the user's fitness score; Computer software and computer application software for mobile phones and personal digital devices for communicating with personal computers, personal digital devices, and mobile phones, regarding time, pace, speed, steps taken, athletic skill, calories burned, agility, motion, balance, coordination, and flexibility; Computer software and computer application software for mobile phones and personal digital devices for monitoring, uploading, and downloading data regarding sport activity, fitness training, and fitness level to the internet and other computer and electronic communication networks; Computer software and computer application software that detects user's movements during physical activity, fitness sessions, workouts, to provide personalized fitness scores and assessments; Computer software and firmware, namely, operating system programs, database synchronization software, and data synchronization programs; Computer software development tools;

Computer software for accessing, browsing and searching online databases; Computer software for accessing, monitoring, searching, displaying, reading, recommending, sharing, organizing, and annotating news, sports, weather, commentary, and other information, content from periodicals, blogs, and websites, and other text, data, graphics, images, audio, video, and multimedia content; Computer software for controlling the operation of audio and video devices; Computer software for creating, authoring, distributing, downloading, transmitting, receiving, playing, editing, extracting, encoding, decoding, displaying, storing and organizing text, data, graphics, images, audio, video, and multimedia content and electronic publications; Computer software for creating, editing, uploading, downloading, accessing, viewing, posting, displaying, tagging, blogging, streaming, linking, annotating, indicating sentiment about, commenting on, embedding, transmitting, and sharing or otherwise providing electronic media or information via computer the internet and communication networks; Computer software for creating, managing, and interacting with an online community; Computer software for fitness and weight management; Computer software for fitness, fitness assessments, and sport activities; Computer software for integrating electronic data with real world environments for the purposes of entertainment, communicating, and social networking; Computer software for managing information regarding tracking, compliance and motivation with a health and fitness program; Computer software for modifying and enabling transmission of images, audio, audio visual and video content and data; Computer software for modifying photographs, images and audio, video, and audio-visual content with photographic filters and virtual reality, mixed reality and augmented reality effects, namely, graphics, animations, text, drawings, geotags, metadata tags, hyperlinks; Computer software for monitoring, processing, displaying, storing and transmitting data relating to a user's physical activity; Computer software for processing images, graphics, audio, video, and text; Computer software for sending and receiving electronic messages, graphics, images, audio and audio visual content via computer the internet and communication networks; Computer software for sending and receiving electronic messages, alerts, notifications and reminders; Computer software for sensing, monitoring, recording, displaying, measuring, and transmitting global positioning, direction, distance, altitude, speed, navigational information, weather information, temperature, physical activity level, heart rate, pulse rate, blood

pressure, calories burned, steps taken, and biometric data; Computer software for setting up, configuring, operating and controlling mobile devices, wearable devices, mobile phones, computers, and computer peripherals; Computer software for social networking and interacting with online communities; Computer software for the collection, managing, editing, organizing, modifying, transmission, sharing, and storage of data and information; Computer software for the redirection of messages, Internet e-mail, and/or other data to one or more electronic wearable wireless communication devices from a data store on or associated with a personal computer or a server; Computer software for tracking and managing information regarding health, fitness, and wellness programs; Computer software for use as an application programming interface (API); Computer software for use in creating, managing, measuring, and disseminating advertising of others; Computer software for viewing digital images and photographs provided as updates for or in combination with head-mounted display screen devices; Computer software for wireless content, data and information delivery; Computer software for wireless data communication for receiving, processing, transmitting and displaying information relating to fitness, body fat, body mass index; Computer software in the field of health, fitness, exercise, and wellness for sensing, monitoring, recording, displaying, measuring, and transmitting global positioning, direction, distance, altitude, speed, navigational information, temperature, physical activity level, heart rate, pulse rate, blood pressure, calories burned, steps taken, and biometric data and for tracking and managing information regarding health, fitness, exercise, and wellness programs; Computer software that detects user's movements during physical activity, fitness sessions, workouts, to provide personalized fitness scores and assessments; Computer software that evaluates a user's fitness level and athleticism, and provides fitness scores; Computer software that monitor, track, and compare sport activity and fitness level; Computer software that provides a fitness assessment and fitness score by comparing previous athletic performances and fitness levels with future athletic performances and fitness levels, and provides advice and customized workouts for improving in specific areas of a particular sport or fitness activity; Computer software that provides tips, coaching, and personalized workouts, to improve the user's fitness score; Computer software to enable accessing, displaying, editing, linking, sharing and otherwise providing electronic media and information via the internet and communications networks; Computer software to enable development,

assessment, testing, and maintenance of mobile software applications for portable electronic communication devices, namely, mobile phones, smartphones, handheld computers and computer tablets; Computer software to enhance the audio-visual capabilities of multimedia applications, namely, for the three-dimensional rendering of graphics, still images and moving pictures provided as updates for or in combination with head-mounted display screen devices; Computer software, downloadable computer software and mobile application software for creating, managing and accessing groups within virtual communities; Computer software, namely, an application providing social networking functionalities; Computer software, namely, an interpretive interface for facilitating interaction between humans and machines; Computer software, namely, software development tools for the creation, debugging, and deployment of software applications for smart glasses, near eye displays, head mounted displays, and smartphones; Software and firmware for displaying electronic media and images; Downloadable computer application software for mobile phones, smartphones, computers, tablets, smart glasses, digital video eyewear, wearable digital electronic devices, namely, glasses, goggles, and headsets, head mounted displays, near eye display systems, communications networks, cloud computing services, and computer systems for communicating between the devices, networks and services; Downloadable computer application software for smart glasses, near eye display systems, and head mounted displays for displaying icons, determining and responding to user selection of icons, controlling connections to and communication with other devices, networks, and systems, operating a camera to record and display images and audio visual files, organizing digital image and audio visual files, controlling microphones, controlling sound level of built-in speakers, transferring computer files between the smart glasses, near eye display systems, head mounted displays and other devices, networks, and systems, controlling user notifications, controlling a touchpad, controlling and obtaining data from sensors in the smart glasses, near eye display systems, and head mounted displays, including accelerometers, barometric, temperature, tilt, tip, and yawl sensors, head orientation sensors, and GPS receivers, controlling the speed of the CPU, and sensing and displaying the battery charge level, and displaying, capturing, recording, and streaming data, images, and audio visual content in standard reality, augmented reality, and mixed reality environments; Downloadable computer application software for smart glasses, near eye display systems, and head

mounted displays for the generation and display of standard reality, augmented reality, mixed reality content; Downloadable computer application software for smart glasses, near eye display systems, and head mounted displays for communication with other smart glasses, near eye display systems, and head mounted displays; Downloadable computer software for enabling capture, storage, and transmission of photographs, videos, data, and information with a user's biometric, health, and other performance data overlaid and integrated into the recording; Downloadable computer software for finding content and content publishers, and for subscribing to content; Downloadable computer software for viewing and interacting with a feed of images, audio, audio-visual and video content and associated text and data; Downloadable computer software, namely, downloadable mobile application for setting up, configuring, and controlling wearable computer hardware and wearable computer peripherals; Gesture recognition software; Software for detecting objects, user gestures and commands; Software for operating sensor devices; Software to view virtual images in creating virtual, augmented and mixed reality; Interactive entertainment software; Location-aware computer software, downloadable computer software and mobile application software for searching, determining and sharing locations; Messaging software; Mixed reality software; Mixed reality software for interactive entertainment; Mixed reality software for navigating a mixed reality environment; Mixed reality software for object tracking, motion control and content visualization; Mixed reality software for operating mixed reality headsets; Mixed reality software for users to experience mixed reality visualization, manipulation and immersion; Mobile application software for creating personalized fitness training programs; Near eye display systems comprising computer software for the generation and display of virtual reality and mixed reality content; Near eye display systems comprising computer software specifically adapted for goggles; Near eye display systems comprising software for the generation and display of standard reality, augmented reality, and mixed reality content; Personal assistant software; Social assistant software; Software and firmware for controlling, configuring and managing controllers; Software and firmware for displaying electronic media on display screen devices provided as updates for or in combination with head-mounted display screen devices; Software and firmware for operating system programs; Software and firmware for video drivers and video processing provided as updates for or in combination with head-mounted

display screen devices; Software and firmware for enabling electronic devices to share data and communicate with each other; Software development tools; Software driver programs for electronic devices for enabling computer hardware and electronic devices to communicate with each other; Software for advertisers to communicate and interact with online communities; Software for alerts, messages, emails, and reminders, and for recording, organizing, transmitting, manipulating, reviewing, and receiving text, data, audio, image and digital files and display screens; Software for communicating by wireless local area networks, wireless technologies, and other communication protocols between near-eye display systems and network devices, namely, mobile phones, smart phones, computers, tablets, and other computer systems; Software for converting natural language into machine-executable commands; Software for creating and managing social media profiles and user accounts; Software for creating, editing, uploading, downloading, accessing, viewing, posting, displaying, tagging, blogging, streaming, linking, annotating, indicating sentiment about, commenting on, embedding, transmitting, and sharing or otherwise providing electronic media or information via computer and communication networks; Software for creating, managing and accessing groups within virtual communities; Software for creating, managing, and interacting with an online community; Software for facilitating and arranging for the financing and distribution of fundraising and donations; Software for generating images to be displayed in near-eye display system; Software for integrating electronic data with real world environments for the purposes of entertainment, education, communicating, and social networking; Software for modifying and enabling transmission of images, audio, audio visual and video content and data; Software for online charitable fundraising services and financial donation services; Software for ordering and/or purchasing goods and services; Software for organizing, searching for and managing events; Software for planning activities with other users, making recommendations; Software for processing images, graphics, audio, video, and text; Software for recording, storing, transmitting, receiving, displaying and analyzing data from wearable computer hardware; Software for smart phones and other computer systems to generate data, images, and audio for display in near-eye display systems and for transmitting such data, images, audio to near-eye display systems; Software for smart phones and other computer systems to receive data from near-eye display systems; Software for social

and destination mapping; Software for social networking; Software for streaming multimedia entertainment content; Software for the collection, managing, editing, organizing, modifying, transmission, sharing, and storage of data and information; Software for tracking motion in, visualizing, manipulating, viewing, and displaying augmented, mixed and virtual reality experiences; Software for use as an application programming interface (API); Software for use in creating and designing virtual reality, augmented reality and mixed reality software; Software for wireless content, data and information delivery; Software in the nature of a mobile application; Software that enables individuals, groups, companies, and brands to create and maintain an online presence for marketing purposes; Software and firmware for use in visual, voice, audio, motion, eye and gesture tracking and recognition; Software, namely, an interpretive interface for facilitating interaction between humans and machines; Video display software; Virtual reality software; Virtual reality software for interactive entertainment; Virtual reality software for navigating a virtual reality environment; Virtual reality software for object tracking, motion control and content visualization; Virtual reality software for operating virtual reality headsets; Virtual reality software for users to experience virtual reality visualization, manipulation and immersion; Virtual, augmented, and mixed reality software for use in enabling computers, tablet computers, mobile devices, and mobile telephones to provide virtual, augmented, and mixed reality experiences; Waterproof near eye display systems comprising computer software for the generation and display of virtual reality and mixed reality content; Computer software for social networking; Computer software for organizing, searching for and managing events; Computer software for creating, editing, uploading, downloading, accessing, viewing, posting, displaying, tagging, blogging, streaming, linking, annotating, indicating sentiment about, commenting on, embedding, transmitting, and sharing or otherwise providing electronic media or information via computer and communication networks; Virtual reality game software; Augmented reality game software; Augmented reality game computer hardware; Virtual, augmented, and mixed reality software for use in enabling computers, video game consoles, handheld video game consoles, tablet computers, mobile devices, and mobile telephones to provide virtual reality experiences; Electronic game software for wireless devices; Electronic game software for handheld electronic devices; Electronic game software in the nature of video games, computer games, interactive multimedia games, and

virtual, augmented, and mixed reality games; Video game software; Interactive multimedia computer game programs; Downloadable electronic game programs; Computer game software; Headsets for use with computers; Computer software for integrating electronic data with real world environments for the purposes of entertainment, education, gaming, communicating, and social networking; Computer software for converting natural language into machine-executable commands; Artificial intelligence software, namely, machine learning software, visual perception software, speech or language recognition software, decision-making software, translation software, touch recognition software, conversational query software, software for converting natural language into machine-executable commands, and digital assistant software; Computer software, downloadable computer software and mobile application software for ordering and/or purchasing goods and services; Virtual reality game computer hardware; Virtual reality software for use in enabling computers, video game consoles, handheld video game consoles, tablet computers, mobile devices, and mobile telephones to provide virtual reality experiences; Wearable peripherals for computers, tablet computers, mobile devices and mobile telephones, namely, configurable head-mounted displays; Augmented reality software for use in enabling computers, video game consoles, handheld video game consoles, tablet computers, mobile devices, and mobile telephones to provide augmented reality experiences; Headsets for virtual reality games; Headsets for augmented reality games; Handheld virtual reality controllers; Handheld augmented reality controllers; Video and computer game programs; Earphones; Computer software for navigating a virtual reality environment; Computer software for use in enabling computers, video game consoles, handheld video game consoles, tablet computers, mobile devices, and mobile phones to provide virtual reality and augmented reality experiences; Headsets; Computer software for recording, storing, transmitting, receiving, displaying and analyzing data from wearable computer hardware; Wearable computing devices comprised primarily of software and display screens for connection to computers, tablet computers, mobile devices, and mobile phones in order to enable virtual reality and augmented reality world experiences; Computer software for use in creating and designing virtual reality and augmented reality software; Computer software and firmware for operating system programs; Computer software for tracking motion in, visualizing, manipulating, viewing, and displaying augmented and virtual reality

experiences; Computer software, firmware and hardware for use in visual, voice, audio, motion, eye and gesture tracking and recognition; Computer hardware and software for operating sensor devices; Computer hardware and software for detecting objects, user gestures and commands; Computer software and firmware for controlling, configuring and managing controllers; Computer software and firmware for enabling electronic devices to share data and communicate with each other; Computer software driver programs for electronic devices for enabling computer hardware and electronic devices to communicate with each other; Cameras; Batteries; Battery packs; Remote controls for mobile electronic devices; Electrical audio and speaker cables and connectors; Audio speakers; Docking stations for mobile electronic devices; Loudspeakers; Electronic cables parts and fittings; Electric cables; Connection cables; Cables for optical signal transmission; Power cables and cable connectors; Microphones; Audio receivers; Audio transmitters; Wireless computer peripherals; Head-mounted video display; Receivers of electronic signals; Video receivers; Wireless transmitters and receivers for reproduction of sound and signals; Electric sensors; Sensors for monitoring physical movements; Downloadable software in the nature of a mobile application; Downloadable computer software for processing images, graphics, audio, video, and text. in the name of Meta Platforms, Inc., a corporation organised and existing under the laws of the State of Delaware, 1601 Willow Road, Menlo Park, California, 94025, United States of America.
