for medical use; sensors and detectors for gathering data for transmission to insurance agencies in relation to the status of property, commercial premises and domestic premises, including flood detection, flare up, full grease traps, alarm/disarm of security systems, door openings, weather threats, regionalized crime threats, regionalized intrusions, trouble signals from alarm and access control panels (including door forces), presence detection, and the presence of explosive materials; sensors and detectors for gathering, processing and transmitting data using internet of things technology, including proximity, carbon monoxide levels, heat, gas, temperature increase, glass break, smoke detection, flooding, fire, flame flare ups, full grease traps, alarm/disarm of security systems, open doors, weather threats, crime threats and motion; data streaming apparatus in the nature of digital media streaming devices; data streaming software; motion sensors, including electronic motion sensitive switches; optical beam sensors, including detecting, counting and tracking people; infra-red sensors, including remote sensors for use in detecting the presence of gas for industrial purposes, for use in detecting flames and for detecting; sensors for detecting, counting and tracking people; computer software used to operate, control, monitor and manage anti-theft alarms, inventory control systems, theft-prevention devices, people tracking devices and asset tracking devices; communications hardware and software for the remote control, remote operation, remote monitoring and remote management of apparatus, systems and devices; all such control, operation, monitoring and management being cloud-based, via the Internet, or via wireless networks; fire alarms; fire alarm systems comprising fire alarms, fire, heat and smoke detectors and sensors, flame detectors, control panels, repeaters, monitoring modules, initiating devices enabled for operation in a wireless system; electric control panels; touch sensitive control panels for security systems, fire alarms, alarm central units, anti-intrusion alarms, burglar alarms, personal health and security alarms, smoke and gas alarms, home surveillance systems, lighting controls, home automation devices and sprinkler systems for fire protection; Ethernet repeaters; initiating devices, including fire alarm boxes, Smoke detectors, Heat detectors, Flame detectors, Sprinkler waterflow detectors, and switches indicating actuation of fire suppression systems; thermostats; wireless fire alarm systems comprising fire and smoke detectors, control panels, repeaters, monitoring modules, and initiating devices enabled for operation in a wireless system; carbon monoxide detectors; fire hoses; fire hose nozzles; smoke alarms; carbon monoxide

alarms; safety equipment, including fire escape ladders; fire beaters; fire pumps; fire sprinklers; fire trucks; fire engines; fire fighting vehicles in the nature of fire trucks and fire engines; fire extinguishers; fire boats; fire blankets; fireproof clothing, including clothing for protection against fire; fire resistant gloves; fireproof garments; fire detection apparatus, including network systems, multiplex systems, stand alone systems, voice communication systems and fire alarm emergency phone systems, comprising, graphical command centers, manual stations, smoke detectors and sensors, flame detectors, heat detectors and sensors, water flow switches, sprinkler supervisory switches, door holders and/or closures, modems, fiber optic line drivers, alarm communicator transmitters and receivers, remote station receivers, audible and visible notification appliances, annunciators, intercoms, crt monitors and printers, batteries and charges and transient suppressors; fire control devices, apparatus and equipment, including fire extinguishing apparatus for use to disperse, water, chemical foam solution or chemical powder, featuring storage tanks for fire-fighting agents, valves and pipes for distributing agents, inductors, generators for high-expansion foam, cannons, nozzles and ejectors; fire extinguishing apparatus; fire extinguishing systems; fire suppression systems and component parts thereof, for use in pre-engineered restaurant, vehicle and industrial systems, comprised of agent storage containers, mechanical releasing devices, electro-mechanical releasing devices and pneumatic releasing devices, mechanical detection, electric detection, comprised of thermal detection, rate of rise detection, heat detection, and linear wire detection, system discharge devices; sprinkler systems for fire protection; sprinkler heads for fire sprinklers; detection and control equipment for smoke, including smoke detectors; detection and control equipment for heat, including heat detectors; detection and control equipment for flame, including fire and smoke detectors; automatic fire extinguishing apparatus; electric alarms for fire; fire break glass units; asbestos safety screens for firemen; sprinkler systems for fire extinguishing; safety equipment, including fire escape ladders; fire extinguishing apparatus for automobiles; water sprinkling devices for fire control; alarms for the detection of inflammable gases; dispersion systems using chemical powder and/or chemical foam comprised of storage tanks for the fire fighting agents, valving and piping to deliver the agents, proportioning controllers, high expansion foam generators, monitors, nozzles and eductors; flame detection instruments, including flame detecting instrument

comprised of an infrared flame detector and cctv camera; fire suppression nozzles; equipment for dispersing dry chemicals and foam chemicals for fire fighting, including storage tanks for the fire fighting agents, valving and piping to deliver the agents, proportioning controllers, high expansion foam generators, monitors, nozzles and eductors; security cameras; security and fire alarms; security warning apparatus, including sensors for detecting body heat, motion and vibrations; security control apparatus in the nature of wireless controllers to remotely monitor and control the function and status of security systems; personal security alarms; electronic security tags; radio frequency identification (RFID) tags; electronic security and surveillance devices, including electromagnetic tags, acoustomagnetic tags, radio frequency identification (RFID) labels, electromagnetic labels, acoustomagnetic labels, radio frequency identification (RFID) readers, electromagnetic readers, acoustomagnetic readers, radio frequency identification (RFID) sensors, electromagnetic sensors, acoustomagnetic sensors, radio frequency identification (RFID) transmitters, electromagnetic transmitters, acoustomagnetic transmitters, radio frequency identification (RFID) receivers, electromagnetic receivers, acoustomagnetic receivers, electrical controllers for acoustomagnetic sensor detection systems, and electronic controllers for RFID readers; security surveillance apparatus, including hardware for video recorders, disc storage containers, encoders, decoders, and keyboards, and software for digital video recording, storage, management, point of sale monitoring, analytics, and security systems integration; automatic access security apparatus, including entry door systems comprising touch pads and security doors; software to control building environmental, access and security systems; control panels for security alarms; motion detectors; motion sensing input devices, including motion sensing controls for protecting property; security alarm systems, including building security alarm systems comprising software and hardware for providing picture, video, alarm status, building plans, and other information to a remote station; wireless security alarm systems comprising software and hardware for providing picture, video, alarm status, building plans, and other information to a remote station; anti-theft alarms in the nature of burglar alarms not for vehicles; anti-theft alarm keypads; anti-theft alarm control panels; electronic article surveillance devices, including UHF Radio Frequency Identification (RFID) and Acousto-Magnetic (AM) integrated traffic and metal foil detection sensors, transmitters, receivers and electrical controllers; electronic apparatus for

monitoring and tracking, including electronic apparatus for monitoring and tracking, including detaching devices and deactivators for use with inventory control and anti-theft labels; electronic apparatus for monitoring and tracking, including sensors, cameras and monitors for alarm monitoring systems; intercoms; intercom apparatus in the nature of voice evacuation systems comprising intercoms, audio speakers and microphones; nurse call systems, including audio/visual signaling and communication systems for use in health care environments, comprising, nurse master stations, bath stations, patient room stations, emergency code terminals, monitors, pagers, intercoms, notification devices, dome lights, and zone lamps; vehicle tracking apparatus; digital signage; mass notification systems, comprised of speakers, signboards, strobes, sirens, pagers, lights, telephones, cell phones and computers for alerting and instructing individuals during emergency and/or disaster situations; telecommunications and data networking hardware, including devices for transporting and aggregating voice, data and video communications across multiple network infrastructures and communications protocols; computer hardware and software systems for tracking equipment and assets using GPS data on a device on the tracked equipment and assets; asset management and tracking systems comprised of magnetic and electromagnetic object detectors; transponders; antennas; encoded micro particulates, plastic labels, markers, and electronic readers, sensors, transmitters, receivers and controllers utilizing radio-frequency identification (rfid), microwave, electromagnetic, radio-frequency and acoustic-magnetic signaling; electronic devices for assisting emergency personnel with people needing assistance, comprised of sensors for determining status of person and apparatus for sending electronic alerts to emergency personnel; apparatus for monitoring the size, number, flow rate and direction of objects moving through an area; positioning tags in the nature of electronic tags for goods; encoded personnel identity badges; encoded patient bracelets; asset tracking tags in the nature of electronic tags for goods; temperature sensors with radio, low frequency and infrared communication capability; electronic wireless input modules for reading data from personnel and article monitoring devices and systems; computer software for securing access to physical property, assets and buildings; software for gathering intelligence related to inventory and asset management, anti-shoplifting and loss prevention, device health monitoring, consumer traffic patterns, operational compliance, point-of-sale transaction analysis, video enabled

applications and store execution functions; computer software for monitoring and controlling systems and devices for the management of motorways and tunnels; flame detection apparatus; flame detectors in the nature of fire and smoke detectors; combustion gas detectors; gas sensors for measuring gas concentration; gas alarms; gas testing instruments; gas detecting apparatus in the nature of gas sensors for measuring gas concentration, including wireless and mobile gas detecting apparatus; gas leak alarm systems comprising sensors and alarms; Programmable Logic Controller (PLC) devices; decontamination devices featuring aerosol spray for chemical and biological decontamination; security lights for outdoor and indoor use; lamps for security lighting for outdoor and indoor use; motion sensitive security lights; lighting being for use with security systems; security lighting incorporating a heat activated sensor, a movement activated sensor; directional valves for delivering fire suppression gas as component of an inert gas fire suppression system; electric and electronic devices and computer software for the remote monitoring and control of, and electronic and audio interaction with, home and/or residential environmental monitoring, control and automation systems; electric and electronic devices and computer software for the remote monitoring and control of, and electronic and audio interaction with, thermostats, heating and air conditioning apparatus, humidifiers, ventilating apparatus, smoke detectors and alarms, carbon monoxide detectors and alarms, fire detectors and alarms, proximity sensors, security and access systems, alarms and sensors, lighting, light sensors, motion sensors, moisture sensors, environmental hazard detectors, wireless local area network enabled cameras, and smart appliances in homes and/or residential environments; application software for use on computers and hand-held devices to enable the remote monitoring and control of, and electronic and audio interaction with, thermostats, heating and air conditioning apparatus, humidifiers, ventilating apparatus, smoke detectors and alarms, carbon monoxide detectors and alarms, fire detectors and alarms, proximity sensors, security and access systems, alarms and sensors, lighting, light sensors, motion sensors, moisture sensors, environmental hazard detectors, wireless local area network enabled cameras, and smart appliances in homes and/or residential environments; electrical and electronic controls and control, automation and optimization devices, apparatus and systems for buildings, facilities and plants; electronic and electronic controls and control, automation and optimization systems for building, facility and plant

environmental, safety, security, fire, sprinkler, water flow, surveillance, tracking, emergency, energy, lighting, sound, display, threat detection, access, and asset management devices, apparatus and systems; electrical and electronic controls and controls systems for the on-site and remote monitoring, control, operation, automation, and optimization of, and interaction with, building, facility, and plant devices, apparatus and systems for heating, air conditioning, ventilation, refrigeration, energy use, allocation, maintenance, efficiency and stabilization, lighting, sound, communication, luminescent display, audio and video broadcast, battery and storage cell electrical charging, metering and payment, fire and smoke detection, alarm, suppression, containment and control, water flow, emergency evacuation, security access and alarms, CCTV, surveillance, asset and personnel tracking, light and motion detection, moisture detection, environmental hazard detection, threat detection and safety, gas detection, alarm and containment, asset management, manufacturing, and equipment and systems fault detection; on-site and field hardware, software, sensors, monitors, controls, control systems and apparatus for individual and integrated on-site and remote monitoring, control, operation, automation and optimization of, and interaction with, building, facility and plant devices, apparatus and systems for heating, air conditioning, ventilation, refrigeration, energy use, allocation, maintenance, efficiency and stabilization, lighting, sound, communication, luminescent display, audio and video broadcast, battery and storage cell electrical charging, metering and payment, fire and smoke detection, alarm, suppression, containment and control, water flow, emergency evacuation, security access and alarms, CCTV, surveillance, asset and personnel tracking, light and motion detection, moisture detection, environmental hazard detection, threat detection and safety, gas detection, alarm and containment, asset management, manufacturing, and equipment and systems fault detection; computer hardware, software and systems for gathering, collecting, aggregating, storing, sorting, analyzing and reporting data; computer hardware, software and systems for gathering, collecting, aggregating, storing, sorting, analyzing and reporting data from building, facility and plant control, environmental, safety, security, fire, sprinkler, water flow, surveillance, tracking, emergency, energy, lighting, sound, threat detection, access, asset management, automation and optimization devices, apparatus and systems; computer hardware, software and systems for gathering, collecting, aggregating, storing, sorting, analyzing and reporting data from building, facility and plant devices,

monitors, monitoring systems, sensors, controls, control systems, and apparatus for heating, air conditioning, ventilation, refrigeration, energy use, allocation, maintenance, efficiency and stabilization, lighting, sound, communication, luminescent display, audio and video broadcast, battery and storage cell electrical charging, metering and payment, fire and smoke detection, alarm, suppression, containment and control, water flow, emergency evacuation, security access and alarms, CCTV, surveillance, asset and personnel tracking, light and motion detection, moisture detection, environmental hazard detection, threat detection and safety, gas detection, alarm and containment, asset management, manufacturing, and equipment and systems fault detection; computer hardware and software for wired and wireless networking of building, facility and plant control, environmental, safety, security, fire, sprinkler, water flow, surveillance, tracking, emergency, energy, lighting, sound, display, threat detection, access, asset management, automation and optimization devices, apparatus and systems; system configuration and user interface software; software for use in the creation, configuration, engineering, installation and operation of building, facility, and plant control, environmental, safety, security, fire, sprinkler, water flow, surveillance, tracking, emergency, energy, lighting, sound, threat detection, access, asset management, automation and optimization devices, apparatus and systems; software for recording, tracking, auditing and reporting the performance and compliance of environmental controls systems; application software for enabling the monitoring, control and operation of, and interaction with, building, facility, and plant devices, apparatus and systems for heating, air conditioning, ventilation, refrigeration, energy use, allocation, maintenance, efficiency and stabilization, lighting, sound, communication, luminescent display, audio and video broadcast, battery and storage cell electrical charging, metering and payment, fire and smoke detection, alarm, suppression, containment and control, water flow, emergency evacuation, security access and alarms, CCTV, surveillance, asset and personnel tracking, light and motion detection, moisture detection, environmental hazard detection, threat detection and safety, gas detection, alarm and containment, asset management, manufacturing, and equipment and systems fault detection using a remote computer, smart phone or other mobile device; galvanic batteries; polymer lithium-ion batteries; rechargeable batteries for electric vehicles and electronic devices; accumulators; electric primary and secondary elements, including electric primary and secondary electrical circuits; electric fuel elements, including

fuel cells; electric batteries, all the aforesaid goods being specially designed as parts or accessories for land, air and water vehicles; chargers and parts therefor, for electric batteries, being specially designed as parts or accessories for land, air and water vehicles; rectifiers and switching apparatus, including electrical switches, and battery-regulating electrical switches, electrical cell switches and capacitance meters for electric batteries, being specially designed as parts or accessories for land, air and water vehicles; automobile accessories, including starter batteries; machines and apparatus for testing galvanic elements, batteries and electric fuel cells specially designed as parts or accessories for land, air and water vehicles, including voltmeters, and for parts for the aforesaid goods; apparatus and instruments for conducting, switching/transforming, accumulating, regulating or controlling electricity, including generators of electricity, electricity conduits, power switches, distribution boxes for electrical power, current transformers; apparatus for monitoring of automotive batteries, including battery monitors; conductive grids for batteries; battery components, including internal frames for the purpose of providing structural durability; vents and vent covers for batteries; industrial batteries; downloadable mobile application software for use in battery monitoring, diagnostics, safety, and for education relating to battery technology; battery management systems, including hardware and computer software for monitoring and managing battery charging, output, and performance and for thermal control; Actuators; actuators, controls and switches for air ventilation and air conditioning systems and equipment; solenoid valves; control valves (electric); terminal unit valves (electric); terminal unit valve actuators (electric); temperature monitors (valves) for central heating radiators; valves (electric or electronic controls for automatically operating); Computer software, including automated energy management and fault detection software designed specifically to monitor, measure, analyze, track, collect, record, transmit and store energy and resource consumption data from existing building control systems and building automation systems to enable users to control multiple building control systems and building automation systems to monitor, track, manage, control, conserve and optimize energy and resource usage, and to allow real time viewing and manipulation of energy and resource usage by way of graphic displays on personal computers, servers and wireless devices and to send and receive data and alerts to users of energy and resource usage, and computer manuals and instructions relating thereto; computer software to be installed on devices or equipment to allow

integration with building control systems and building automation systems from different vendors, and to transmit and receive data and instructions between the device or equipment and the building control system or building automation system and other software and allowing software to control the building control system or building automation system network and the devices and equipment connected thereunder; computer software, including application programming interface library for the integration of third party building control systems and building automation systems with other building energy management system software or frameworks in the name of Johnson Controls Technology Company, a corporation organised and existing under the laws of the State of Michigan, 49200 Halyard Drive, Plymouth, 48170, Michigan, , United States of America,. Address for service: SPOOR & FISHER, Messrs.
