2023/16360 in Class 01: Chemicals for use in life sciences research; diagnostic preparations for scientific, research, clinical, or medical laboratory use; DNA for scientific, laboratory and medical research use; reagents for scientific and biological research use; reagents and diagnostic test kits for performing biochemical assays containing biological components, namely, substrates, enzymes, proteins, and nucleic acid molecules, chemical components, namely, buffers and reagents and hardware components, namely, slides, membranes, and microfluidic devices for scientific or medical research use; biological chemical diagnostic test kits for scientific or research use for comparison testing of expression levels of biological samples, consisting of nucleic acid molecules, DNA molecules, slides and membranes; liquid chemical compositions for use with scintillation counters for detecting and measuring ionizing radiation; melt-on scintillator sheets for chemical and biological research and scientific uses in the chemical and biological industries; assays and reagents for use in genetic research; diagnostic kits consisting primarily of polymerase chain reaction (PCR) mixes for detection of aneuploidies in chromosomes for scientific or research use; chemical analysis kit for use in DNA analysis, not for medical or veterinary use; chemical test kits for cell assays for laboratory or research use; diagnostic reagents for clinical, biochemical or laboratory use; genetically-engineered biological cells and pathogens for scientific, laboratory and research use; Assays for research purposes; Biochemical reagents used for non-medical purposes; Chemicals for use in the purification of proteins for in vitro use; Nucleic acid sequences and chemical reagents for other than medical and veterinary purposes; Protein arrays and nucleotide arrays for research use; Reagent kits comprising generic DNA circle, DNA primers, polymerase and

buffers for use in biotechnology fields; Reagents for research use; Biochemical reagents commonly known as probes, for detecting and analyzing molecules in protein or nucleotide arrays; Diagnostic reagents for scientific or research use; Nucleic acid isolation and purification kit consisting primarily of reagents and magnetic beads for scientific research purposes; Fluorescent reagents for the measurement of biomolecular interactions in the field of life science research; Chemical fluorescent reagents for scientific or research use; reagents for research purposes; Chemical preparations for use in scientific research, namely fluorescent reagents for in-vitro measurement of biomolecular interactions and for in-vitro drug screening research and antibody reagents used for in-vitro detection of antigens in cell and tissue; Chemical preparations for use in scientific research; biochemical reagents for non-medical purposes, namely, for detecting biomolecules or biomolecular interactions in the field of life science research; biochemical reagents for non-medical purposes, namely, for detecting biomolecules or biomolecular interactions in the field of life science research, for in-vitro research use; biochemical reagents for non-medical purposes, namely, fluorescent reagents for measuring biomolecules or biomolecular interactions in the field of life science research, for in-vitro research use; Chemical and biochemical reagents for use in scientific research, namely, chemical and biochemical reagents for protein labelling to be used in life science and drug screening research; Chemical reagents, namely, fluorescent dyes for labeling proteins for scientific and research use; Kits comprising assays and reagents for screening embryos for chromosomal abnormalities for research purposes; kits comprising assays and reagents for analysing chromosomal content of embryos for research purposes; kits comprising assays and reagents for screening embryos for suitability for in vitro fertilization for research purposes; kits comprising assays and reagents for testing chromosome content for use in assisted reproductive technologies for research purposes; Reagents, and kits consisting primarily of reagents, for nucleic acid amplification for scientific, forensic and research use; reagents, and kits consisting primarily of reagents, for polymerase chain reaction for scientific, forensic and research use; PCR reagents, and kits consisting primarily of PCR reagents, for scientific, forensic and research use; PCR kits comprising nucleotide solutions, oligonucleotides, buffers and reaction reagents for scientific, forensic and research use; reagents, and kits consisting primarily of reagents, for whole genome amplification for scientific, forensic and research use; reagents, and kits consisting primarily of reagents, for whole genome application from single cells or limited DNA templates for scientific, forensic and research use; reagents, and kits consisting primarily of reagents, for chromosomal, genomic, mitochondrial, genetic and/or sequencing analyses using whole genome amplification for scientific, forensic and research use; chemical preparations for scientific purposes, other than for medical or veterinary use; chemical preparations for analyses in laboratories, other than for medical or veterinary purposes; Chemical reagents for non-medical purposes; Chemical substances for analyses in laboratories, other than for medical or veterinary purposes; Reagent paper other than for medical purposes; Test paper, chemical; Diagnostic preparations for scientific purposes, namely, immobilized proteins, nucleic acid sequences, allergens and biological tissue cultures; unprocessed synthetic resin compounds in the form of microspheres used to incorporate various other substances; chemically-treated nonmedical test strips for use in analyzing nucleic acids, proteins, cells and tissues; reagents for scientific and research use for labeling, sequencing and fragment analysis of nucleic acids and proteins; polymeric membranes in chemical form for the separation of liquid gas and samples; Diagnostic preparations, agents and substances for scientific purposes, in particular tissue sections and immobilised proteins on a carrier or a carrier material, in particular on a biochip, microsphere, test strip, blot, microplate or membrane; Human cells and isogenic cell lines for research use; genomic reference control samples for laboratory use; molecular biology research tools, in the nature of biological and biochemical reagents, specifically, genomic DNA used for research purposes; DNA repair enzymes for scientific and research purposes; biological and chemical reagents, namely, genomic DNA, cell cultures and mutant and normal isogenic human cell line pairs, for research use; reagents, plasmids and assays for research use; biological preparations in the nature of separate base editing components including mRNA, rRNA, gRNA, deaminase, nickase, ribonucleotide protein (RNP) for research use; biological preparations in the nature of genetically modified cells and vectors for scientific and research purposes; biological and chemical reagents including complexes of these molecules for research and for clinical use; compounds containing nucleosides for research use; diagnostic assay kits containing antibody reagents and processing chemicals for scientific or research laboratory use; Immunoassay preparations, namely, antibodies and processing chemicals for research on cell cultures and other

biological samples; Chemical products, namely, 1,25-dihydroxyvitamin D for diagnostic use, namely, diagnostic preparations for scientific or research use; Chemicals for use in industry, science and photography, as well as in agriculture, horticulture and forestry; unprocessed artificial resins, unprocessed plastics; fire extinguishing and fire prevention compositions; tempering and soldering preparations; substances for tanning animal skins and hides; adhesives for use in industry; putties and other paste fillers; compost, manures, fertilizers; biological preparations for use in industry and science. in the name of REVVITY, INC., a Massachusetts corporation 940 Winter Street, Waltham, Massachusetts 02451, United States of America. voice recorders and telemetry systems for use on aircraft; computer software for operating and controlling aircraft maintenance systems on aircraft; computer software for operating and controlling telemetry scanners; intrusion detection systems; computer software for operating and controlling combat scoring systems and pictures, computer software for operating and controlling air traffic handling systems; computer software for operating and controlling monitors, still cameras and video cameras; computer software for operating and controlling radar systems; computer software for use in vehicle status and monitoring systems; computer software for system situational awareness and representation in a communication and data link control system; telecommunications channel amplifiers; frequency filters for use in telecommunications; computer hardware for electronic key information processing, namely, the processing of information related to electronic encryption and other security technologies; radio frequency limiters; harmonic generators; satellite transponders; transponder controllers; secure communications systems consisting of digital processors, modulators, antennas, transmitters, receivers, and encryption hardware and software for secure algorithm processing devices for use with airborne, satellite, ground and sea-based information collection, transmission and analysis; communications systems consisting of high data rate microwave communications links and computer hardware; communications systems consisting of telephonic and high data rate microwave radio components, digital processors, computer hardware, software containing algorithms for use in processing secure communications and software for the secure broadcast and/or receipt of communications and information or data; on-board satellite equipment providing subsystem capabilities, namely, electronic modules and circuit cards for digital solid-state recording of electronic data, video signal processing, communications signal processing and translation; microwave devices, equipment, products and components, namely, frequency transmitters, frequency converters, frequency synthesizers, frequency modulators, frequency filters, frequency power amplifiers, passive components, mechanical switches, wireless frequency monitors; radio navigation equipment comprised of recording transmission and receiving microwave equipment, namely, microprocessors, electronic displays, digital storage devices, radio transmitters and receivers, providing the following capabilities; navigation, vehicle command and control, vehicle indications and warning, data and telemetry recording; surveillance equipment and devices, namely, ISR (Intelligence surveillance reconnaissance) subsystems which use computer hardware and software to provide a sampling of the electromagnetic spectrum in prescribed frequencies to extract information content available for analysis, for use in military and civilian aircraft; electronic sensors that provide in real time the ability to collect electronic data and information; electronic computer hardware and software that allow for the collection, monitoring, analysis, storage, and presentation of medical images; hardware that allows for the interfacing of analog or digital signals into the existing PSTN (Public Switch Telephone Network) or global Information network and create the ability to take those same signals into a mobile communications system; telephonic computer hardware that allows for creation of a wireless last mile, namely, wireless radio connections between a central source and destination with the telephony and data system having fixed site or mobile operational capability; communications terminals which consist of computer hardware that provides for the creation and connection of multimedia communication signals including analog, voice, data, and video and allow signals to be connected to other communications terminals or other network nodes; Radio and television transmission systems comprising transmitters, monitors, signal mixers, audio and video signal encoders and decoders and editing equipment, namely, signal processors; transmitters and receivers for satellite communications; computer operated network systems comprising computer hardware and software for transmitting data between computers connected in a network and for managing the computers and the transmission of the data on said network; computer information systems comprising computers and software for processing data, word processing and displaying of data; avionics systems comprising digital maps, fiber-optic and wire data busses, memory devices, instrumentation for displaying, storing, processing, and retrieving weather, tactical, strategic and secure data, aircraft cockpit controls and data displays; phased array antennas; global positioning equipment comprising data processors and displays; Computer software and computer hardware for use in air traffic control communications systems for displaying transporting, transmitting voice, data and images, controlling, switching, routing, and receiving air traffic information; computers and computer software for converting images into data, and for analyzing, displaying and printing the data in the field of two and three-dimensional image extraction, manipulation, display, and geographic registration; secure computer operated systems consisting of

computer hardware and computer software, and encrypted databases, all used for ensuring and controlling the security and access of a computer network and the information contained therein namely, tracking air traffic and transmitting encrypted messages to pilots data base management, file transfer, and for connecting computers and data bases in a network and for air traffic circulation management; airline management system comprising computers and software for database management and for exchanging aircraft and aircraft operations information; Television signal analysis processors, namely, electronic display panels for displaying signals, signal evaluation terminals primarily comprised of customized signal analysis hardware with integrated displays and software analysis components running on industry standard computers and monitors for evaluating the quality of analog and digital signals, media analysis servers for verifying the quality of digital media content, signal interface modules, handheld signal analyzers, optical signal analyzers, circuit testers for monitoring broadcast signals, and video monitoring tools, namely, software based video monitoring tools, namely, computer software for monitoring and logging the loudness of media content; timing reference generators, namely, time reference signal generators for broadcast system timing signal and test signal generation; hardware and computer software for television production, post production and broadcast, namely, demodulators, digital signage, namely, dynamic electronic displays and networking computer servers and computer software for managing and controlling dynamic electronic displays, distribution amplifiers, audio/video editors, namely, computer workstations equipped with computer software for editing audio and video program material, computer hardware and computer software sold as a unit for generating characters and graphics, computer software for generating visual effects, computer hardware and computer software sold as a unit for generating and inserting on-air branding, emergency alert modules, namely, computerized electronic modules and associated computer software for implementing the broadcasting of public emergency alert messages, fiber optic signal transports, electronic master control switchers for audio and video signals, audio and video signal compressors and audio and video signal decompressors, multiplexers and de-multiplexers, multiviewers, broadcast computer network monitoring and control application software, electronic network control panels, audio, video and data receivers and decoders, electronic routing switchers for audio and video signals, video servers, NTP (Network Time Protocol) timing modules comprised primarily of computer hardware and computer software for carrying out NTP timing, signal timing clocks, signal transport modules, audio/video sync and timing managers primarily comprised of high precision clock generation circuitry for synchronization of audio with video, computer software for creating and displaying timecode markers, up/down signal frequency converters, signal format cross converters, all for use in the media and entertainment industry; broadcast operations software for advertising, sales, traffic and billing, automation, digital asset management, programming and rights management, namely, computer software for managing, monitoring and automating the buying, selling, scheduling, research, inventory management, production tracking and accounting processes for advertising, and general content for the media and entertainment industry; computer software for controlling and monitoring switching systems for television and radio signals; computer software for managing, monitoring and automating the creation, movement, location, archiving, retrieval and use of digital media assets; business process management and messaging software, for managing and controlling human and automated workflows and multisystem communications for use in the media and entertainment industry; network management centers primarily comprised of mobile and portable radios and also containing electrical base station controllers, electrical communication controllers and electrical network controllers; mobile two-way communications radios; and non-mobile two-way communications radios; portable two-way communications radios; radio network gateways comprising computers, computer switches and associated computer software for voice and data communications; Internet protocol-based networks comprising computer hardware and computer software for interoperable communications; telecommunications equipment, namely, trunked radio communication systems for public service and industrial applications comprised of portable communications radios, electrical base station controllers, electrical communication controllers and circuit switches; control equipment for two-way mobile and two-way fixed radios, namely, base station equipment for fixed and mobile networking and communications, cell sites primarily comprised of electronic hardware, computer software, antennae, and base stations, control stations primarily comprised of, radio hardware and associated computer software, desktop control stations primarily comprised of radios, radio hardware and associated computer software, dispatch and console hardware, namely, dispatch

consoles and software for carrying out emergency and nonemergency communications and carrying out command and control of public safety personnel and assets, site management computer hardware and software for managing communications radios and base stations, and network monitoring computer hardware and software for monitoring communications radios and base stations; radio data communications systems primarily comprised of mobile communications radios and also containing non-mobile communications radios, portable communications radios, base station controllers, communication controllers, and network controllers; communications radio network gateways comprised primarily of computers, computer switches and associated computer software for providing a gateway between networks; space deployable reflectors for satellite communications; computers and computer software for processing geographic elevation data representing the elevations of locations on the earth to generate, display and print three-dimensional geographically registered representations of those locations; computers and computer software for managing, cataloging and retrieving geospatial imagery, imagery derived products and other intelligence products through the synchronization of data catalogs across disparate storage locations; computers and computer software for managing, processing, exploiting and disseminating motion imagery intelligence; computers and computer software for managing, processing, exploiting and disseminating flight planning presentations to general aviation pilots and air traffic controllers; networking communications radios; shipboard communication terminals primarily comprised of antennae, pedestals, positioners, modems, up converters, down converters, amplifiers and user interfaces; ground communication terminals primarily comprised of antennae, pedestals, positioners, modems, up converters, down converters, amplifiers and user interfaces; computer information systems comprised mainly of computers and computer software for processing data, word processing and displaying of data in the fields of census information systems, healthcare information systems, intelligent electrical power distribution systems, weather reporting and forecasting systems and environmental reporting and forecasting systems; avionics equipment, namely, video signal compressor and decompressors, power supplies, mounting racks specially adapted for mounting and interconnecting electronic apparatus, airborne signal processors for network interoperability and for targeting, of weapons secure network switches, computer software in the nature of networking protocols for facilitating the exchange of electronic messages and data, radio frequency (RF) data links for weapons, UHF/VHF wireless data links, beam former electronics primarily consisting of power amplifiers and also containing low noise amplifiers, phase shifters, time delay units, transmit and receive switches, array dividers, array combiners, frequency up-converters, frequency down-converters, array controllers and array power supplies and control equipment, antenna control units, attitude and heading reference units, transmit/receive control units, antenna position controllers and frequency band select switches; air traffic control communications systems consisting of computer hardware and computer software for displaying, transmitting, controlling, switching, routing, and receiving weather data; two-way radios for communication of voice, data, images and video for use by military and other government agencies; two-way communications radios, namely, voice and data communications radios operable across multiple frequency bands for enabling public safety officials and first responders such as law enforcement agencies, paramedics, firefighters and military personnel to communicate interoperably with one another even though their respective pre-existing communications infrastructures might otherwise be mutually incompatible; trunked radio communication systems for public service and industrial applications, namely, cellular base stations and mobile radio base stations for two-way mobile and fixed communications radios; loudspeakers for mobile two-way communications radios; loudspeakers for non-mobile two-way communications radios; battery chargers for two-way communications radios; Internet protocol-based communication networks comprised primarily of computer hardware and computer software for implementing interoperable communications; cryptographic modules namely, electronic modules with embedded firmware for data encryption; encryption engines; radio frequency wireless communications adapters, namely, network interface cards; software for operating radio frequency wireless network interface cards; communications software for connecting radio frequency wireless network interface cards to a local area communications network; radio network gateways comprised primarily of computers, computer switches and computer software in the field of voice and data communications; computer software for use in the field of air traffic control, namely, for the supervision, maintenance, administration, troubleshooting and configuration of computer software for monitoring the performance of air traffic control systems, mapping definition, uploading

software updates and releases, access control, user definition, recovery and diagnostic reporting. in the name of L3Harris Technologies, Inc., a Delaware corporation, 1025 West NASA Boulevard, Melbourne, Florida, 32919, United States of America. 2023/14202 in Class 09: Apparatus, instruments and devices for electric control, remote control, signalling, paging, surveillance, remote surveillance, access control, detection and alarm; apparatus and instruments for supplying electricity, for conducting, transmitting, switching, transforming, accumulating, regulating or controlling electricity; electrical apparatus for installation; parts and components for electrical apparatus for installations, namely mechanisms, boxes, cases, supports, claws, securing clips, pedestals, securing frames, frames for surface mounting, adapters, adapter frames, plates, base plates, backplates, finishing plates, floor finishing plates, trim plates, front plates, coverings, hoods, shutters, lids, cover hinges, trim, label holders, control buttons and pins; mechanisms for electric apparatus and electric control installations and apparatus; electrical apparatus for modular installations; current-meters; supervision apparatus for electric mains; analysis apparatus for electric mains; transducers; circuit breakers; high voltage circuit breakers; medium voltage circuit breakers; earth leakage units for circuit breakers; circuit breakers for motors; circuit breakers for electric motors; modular circuit breakers; controllers for circuit breakers; auxiliary signalling and control equipment for circuit breakers; undervoltage release switches, overvoltage release switches, timed undervoltage release switches for circuit breakers; load break isolators; power stabilizers; relays; differential relays; overload relays; protective relays; connected relays; residual current relays; decoupling relays; relays for collective safety devices; time-delay relays; twilight relays; remote control relays; earthing apparatus; earth connections; earthing collars; splitters; distribution boards; modular distribution banks; distribution panels; circuit breaker mechanisms; current breaker mechanisms; cases for emergency shut-off or emergency stop devices; fuse cartridges; industrial cartridges (electricity); combined cartridge units; fused connection units; load relief devices; counters; ammeters; voltmeters; transformers; autotransformers; blocks of electrical apparatus for installations; modular units (electricity); modular units and modular mechanisms for controlling home automation functions; electric control cabinets; detectors and sensors for the automatic control of home and building automation functions; solar cells; support rails for modular electrical apparatus and connectors and adapters for the aforesaid rails; supports for electric apparatus for installations; electricity branch boxes; connectors; coaxial connectors; electric connectors for office furniture; connecting leads; connectors for copper bars; data rails; connectors between installation bus cables and mounting rails of modular panels; branch terminals; branch grids; terminals (electricity); connecting bars; cut-off bars; junction blocks; drawers for optical fibers; power supplies (electricity); modular supply units; emergency power units; emergency power supply boxes; power supply apparatus for programmable logic controllers; power supply terminals for campsites; progressive starters and speed reducers for asynchronous motors; electric connections; electrical connection boxes; supply points; connection combs; distribution combs; supply terminal blocks, and supports therefor; shutters (electricity); terminal protector screens and supports therefor; terminal cover boxes; lightning arrester equipment; dimmers; tele-regulators; electric light dimmers; voltage regulators; power regulators; speed controllers (electricity); limit regulators/switches; voltage regulators; voltage surge protectors; speed governors; pressure regulators; power blocks; potentiometers; timers for electric installations; cut-off warning apparatus connected to a timer; telerupters; auxiliary equipment for telerupters; contactors; power contacts; switches for off-peak tariffs and other tariffs applicable to electricity; auxiliary equipment for switches; uninterruptible electrical power supplies; uninterruptible electric batteries; electric batteries and accumulators; battery cases; battery cassettes; condensers [capacitors]; electric ballasts and monitors therefor; compensators (electricity); repeaters; electric compensation panels; chargers;

wireless chargers; USB chargers; charging stations for electric vehicles; electric sockets, pedestals and cords for charging stations for electric vehicles; mounted and prewired electric boards for photovoltaic installations; waterproof electric boxes for photovoltaic installations; invertors for photovoltaic installations; electronic devices providing various services to hotel guests, namely management of lighting, heating, communication with the hotel reception; sockets for hotel room management systems; multi-application modular controller for hotel room management; electric heating control and energy management apparatus; energy management apparatus, in particular for electric heating; heating programmers; apparatus and instruments for measuring and/or controlling temperature; thermostats; room thermostats; programmable thermostats; sensors for thermostats; temperature control apparatus [thermostats]; smart temperature control apparatus [thermostats]; wireless temperature control apparatus [thermostats]; thermostatic valves; smart thermostats; smart electrical apparatus to optimize energy consumption; thermostatic valves allowing remote heating control; decorative covers for thermostats; electric control devices for ventilating installations; wireless weather stations; couplers (data-processing equipment); phase couplers; modular couplers; bus couplers; modular receivers and transmitters, in particular for remote control; interfaces for remote control apparatus and installations; filters (electricity); input filters, in particular for remote control apparatus and installations; isolating filters for sockets; programmers; programmers for domestic electrical equipment; cooker control units; domestic programmers; power distribution units; a power distribution units accessories, namely connection cable, extension cable; power distribution units management software; switched power distribution units; line metered power distribution units; intelligent power distribution units; remote-controlled power distribution units; cabinets, cases, switch boards and distribution boards (electricity); medium voltage distribution boards; push button panels (electrical -); modular distribution blocks; terminal cover cases (electricity); cases for weak current and signals; subscriber branching cases (electricity); subscriber boards (electricity); subscriber cut-off and/or counter boards; cases pre-fitted with subscriber branching boards; cases pre-fitted with circuit breakers; sheaths for weak currents; electric cable ducts; accessories for electric distribution boards, namely supports for flat bars, flat bars, additional brass bars, cuttable cable entries, plates with knock-out cable entries, security locks; parts and components for the aforesaid cases, cabinets, bays, panels and boards namely: recess boxes and troughs, installation templates, frames, doors, pedestals, boards, end pieces, plates, cut-out plates, back plates, separation plates, side panels, hoods, covers, coverings for boards, blanking plates, front plates, risers, riser covers, trunking, rails, bars, cross braces, stays, finishing frames, cone-shaped finishing elements, terminal blocks, supports for terminal blocks, terminal covers, modular elements for cases, power packs, splitters, sockets, switches, connectors, cable sheaths, cable routing plates, guide straps for wiring, fixtures; braces for coupling the aforesaid cases; cable routing arches; electric conductors, including wires, cable, rails and buses; extension cables and cords; connected busbars; electric cable drums; electric cable sheaths for cabinets able to house equipment; conduits for electrical cables; cable ladders (electric -); trunking, mouldings, plinths and columns for electrical conductors and/or apparatus; cable guides for electrical conductors; cable ducts for conductors, electric; ducts [electricity]; technical distribution plates (electricity); grommets (electricity); electrical penetrations; cable end fittings; strain relief cable glands; markers for electric conductors; sleeves for markers for electrical conductors; marker carriers for electrical conductors; collars for electric conductors and equipment; junction blocks; control modules; diode modules; electric control, remote control, radio control, infrared control apparatus, devices and installations, in particular for heating, watering, air-conditioning, ventilating, alarms, automatic shutters, blinds, projection screens, televisions, doors, entrance intercoms, locks, presence simulation, and all electric apparatus in general; electrical apparatus for the control and management of lighting; electric lighting controls; room lighting control apparatus; apparatus for the control by telephone of heating systems and other functions; electric controllers for roller shutters; powered drives for shutters; wind and/or sun sensor assemblies for apparatus for controlling blinds or roller shutters; remote controls; radio remote controls; remote control boxes; ancillary remote control apparatus; portable remote controls; infrared remote controls; electrical control units or bus radio-controlled units; infrared controls; transmitters and receivers (remote control); telecommunications transmitters and receivers; aerials; electric single or multi-function control units; electromechanical interfaces (apparatus) for control apparatus; switches; electronic switches; push switches; differential switches; time switches; time delay switches; twilight switches; trip-free switches; switch-disconnectors; switch-disconnectors with fuse; current interruptors; monitoring switches; light

switches; lamps for light switches; switch-receivers; power switches; key switches and buttons; key, badge or card switches (in particular for hotel rooms); switches with locks; shutter switches; remote-controlled switches; connected switches; decorative plates for switches; supply inverters; invertors; commutators; medium voltage switchgear; electric push buttons; push buttons with label holders (electricity); push buttons (electricity); encoding keyboard control apparatus including switches and push buttons; two-way switches; double two-way switches; two-way switches and push buttons with light; pulse-operated push buttons and rotary buttons for electrical control and signalling; mushroom head emergency stop switches; auxiliary contacts; wire outlets; cable outlets; indicators (electricity); electric indicators; indicator lights (signalling) and diffusers therefor; indicator beacons; label holders (signalling); plugs and sockets (electricity); jack plugs and sockets; RJ45 plugs and sockets; HD15 plugs and sockets; pins (connectors); plugs and sockets; connected socket; combined electric and USB socket; combined TV and telephone sockets; data socket; supports and frames for current plugs; electric socket cases for construction sites; socket blanking panels; television plugs and sockets; video plugs and sockets; radio plugs and sockets; telephone plugs and sockets; loudspeaker plugs and sockets; microphone plugs and sockets; computer plugs and sockets; multimedia plugs and sockets; linking plugs and sockets; computer connectors; connector units; connection strips; distribution strips; plug and sockets for receiving and/or communicating by satellite; plug and sockets for receiving and/or communicating by cable networks; plugs and sockets for frequency modulation reception; plugs and sockets for connectors; locks for connectors; connector cover; sockets with connectors; plugs and sockets for fibre optics; optical fiber connectors; optical jumpers for scrambling; plugs and sockets for signalling, paging and/or alarm apparatus; plugs and sockets for electric control apparatus; electric sockets with centralized extraction; sockets for lightning arresters; multiple plug boards; industrial plugs and sockets; industrial socket cases; connector pedestals; mobile sockets; attenuators; adapters (electricity); travel adaptors for electric plugs; converters, electric; scrambling panels (electrical connections); scrambling leads; blocks of electrical apparatus for installations; recessing boxes (electricity); boxes for connecting lighting such as boxes for wall lights and centre spot lights; electric conductors, in particular cables, wires, leads, rails and buses; electric multiplex wiring harnesses; profiled sections for installation and/or distribution purposes for electrical conductors and/or apparatus; stand-alone signalling units stand-alone beacon units; control apparatus for stand-alone security lighting units and for centralizing information from the aforesaid units; repeaters for the remote control of security lighting apparatus; interfaces, connection devices, function cards and auxiliary modules, all being for signalling apparatus and installations; cases, cabinets, consoles (stands), cabinet/consoles, bays, boxes, troughs, cassettes and drawers, all being specially adapted to house electrical, electronic, optoelectronic and/or computer and/or fibre optic apparatus or equipment, whether pre-fitted or not, for surface or recessed mounting; distribution, connection and/or wiring equipment for boxes and cabinets (electricity); distribution equipment for modular electrical apparatus; scrambling panels, cases, bays and cabinets for voice-data-image (VDI) applications; patch panels for datacenters; smart patch panels; optical fiber patch panels; high density optical fiber patch panels; apparatus for the remote control of home or building automation functions, in particular by means of carrier current, radio, telephone; remote control apparatus for electric switches; programming interface for electric apparatus; servers for home and/or building automation applications, facilitating the reception and transmission of commands by remote control; modems for connecting the aforesaid servers to telecommunications and/or computer networks; alarm apparatus and instruments; modular alarm apparatus; modular apparatus for technical alarms; central management units for signalling and/or alarm apparatus; alarm panels; fire and security central units; home automation central units; automatic control management boxes for fire alarms; controls for smoke extraction fans; acoustic monitoring apparatus, in particular for children's rooms; switchboards; electric acoustic signalling, paging and/or alarm apparatus and equipment, including for doors and gates; buttons for bells and/or paging; bells and chimes (warning, signalling and/or alarm apparatus), including for doors and gates; electric doorbells; transformers [electricity] for bells; electric door bells; electronic wireless doorbells; door-entry systems; plates for door-entry systems; smart door-entry systems; access control devices; alarms for electric networks; warning lights; sound alarms; horns; anti-theft alarms (except for vehicles); fire alarms; electric alarm bells; industrial alarms; buzzers; sirens; sirens boxes; sound diffusers for emergency exits; signals (luminous); revolving lights (signalling); blinking lights [luminous signals]; flashing lights; sound and blinking light units; mount holders for the aforesaid lights; signal beacons; intruder alarms, in particular power line or

radio-operated; telephone transmitters and electromechanical relay interfaces (apparatus) therefor; video surveillance systems; indoor cameras for video surveillance systems; outdoor cameras for video surveillance systems; burglar alarms; video telephones; plates for video telephones; cameras for video telephones; web cameras; intercoms; plates for intercoms; intercommunication apparatus, cameras, door-entry systems for alarm systems; computer hardware and software for use in video surveillance; electronic anti-theft device; electric locks; smart locks; apparatus for recording, reproduction, broadcasting, transmission, dissemination, reception of sound and/or images, including: loudspeakers, boom boxes, soundbar, preamplifiers, amplifiers, microphones, paging mikes, selectors for controlling the sound volume, sound volume attenuators; preset radio station selectors; public address systems; music players; electrical devices for suppressing white noise and interference; magnetic, optical, electronic and/or digital data carriers for sounds and/or images and/or data and/or computer programs; television and/or radio receivers, by radio and/or satellite; radio and/or satellite signal amplifiers; switches for radio and/or satellite signal receivers; electronic switchers for video signals; couplers for joining radio and/or satellite signals; radio and/or satellite signal splitters; VDI (voice, data, images) splitters; multiport Ethernet repeaters; computer software used for recording, transmitting, displaying or projecting sound, images; projectors; film projectors; slide projectors; tactile screens [electronic]; screens for use in photography, with computers or for cinematographic projection; portable picture screens and parts and accessories thereof; picture screen fabric; unipods for cameras or movie projectors; control device for projection screen; locking system for projection screen; fabric covering providing a masked border surrounding the viewing area of a projection screen; light absorbing fabric covering sold as a component part of video projection screens; audio speaker stands, audio and video equipment stands and audio and video equipment wall mounts; stands adapted for laptops; stands for computer hardware; stands adapted for tablet computers; computer monitor stands; support frame for LCD; television apparatus; television antennas; furniture for use with audio and video equipment; plugs and cables for use with audio and video equipment; multimedia apparatus for reception, recording, transmission, amplification of sound; analog apparatus for reception, recording, transmission, amplification of sound; digital apparatus for reception, recording, transmission, amplification of sound; computer cabinets; liquid crystal display screens; adjustable mounting systems, namely, mounting racks, stands, tables and carts adapted for liquid crystal displays, plasma displays, cathode ray tube displays, projectors, video cameras; stereoscopic apparatus; thin film transistor liquid crystal display (TFT-LCD) panel; racks for amplifiers; video conferencing apparatus; video and audio/visual system controllers; video and audio/visual systems consisting of electrical controllers and computers which provide automated motion tracking that follows a moving presenter; IP cameras for capturing video, thermal cameras; camcorders; video intercoms, audio intercoms; software for video surveillance cameras; video surveillance cameras; computer application software for mobile devices and handheld personal computers to display video on mobile devices; camera covers, camera casings, cameras lenses; control boards for video surveillance cameras; floor display units; video encoder, television decoder, camera servers, motion controllers for cameras, optical motion sensors and trackers for cameras during meetings or presentations; video and audio/visual system controllers, namely, controllers that power on/off, select audio/video sources for, or operate indirectly, such video cameras, electronic switchers, systems, components, cables, and peripherals; digital voice signal processor; computer software for designing, selecting, or ordering audio and video equipment accessories, namely, accessories for projectors and flat panel displays; computer software for generating or modifying a parts list for audio and video equipment accessories; car audio apparatus; control apparatus for fire alarms; detectors; infrared detectors; infrared sensors; transmitter-receiver interfaces; magnetic opening detectors, in particular for garage doors; presence detectors; motion detectors; movement detectors; intruder detectors; proximity sensors; radiofrequency detectors; smoke and fire detectors; stand-alone detectors, tripping devices; gas detectors; flood detectors; temperature rise detectors; ice-break detectors; pre-alarm detectors; electromechanical interfaces (apparatus) for detectors; photocells; electric contacts, in particular for doors and gates; holding magnets and control units for fire doors and emergency exits; control boxes for emergency exits and extinguisher systems; electric or electronic striking plates, locks and closures, and controls and remote controls therefor, including by touchpad; coded touchpad controls for access control; encoding key panels for buildings; door units for electric locking of emergency exits; closure selectors for doors; boxes and readers for access control apparatus; autonomous access control readers and electronic keys for these; magnetic and/or electronic and/or

optical and/or digital keys, cards and badges, in particular for access control; badge holders for the aforesaid badges; access control apparatus in the nature of an identification badge reader; programming keys for electronic keys; entrance intercoms for apartment blocks and houses; intercoms; videophones; telephone and entry phone apparatus and switchboards; telephone and entry phone sets; telephone and intercom handsets; electrical apparatus for installations, in particular centralized and programmable apparatus, facilitating the control and management, either on-site or remotely, in particular from a computer or mobile phone, of home and/or building automation functions and applications, including the control and management of electric and electronic circuits, lighting, heating, air conditioning, ventilation, automatic watering, shutters, blinds and windows, door openers, for the management of breakdowns, leaks or faults, for the management of temperature levels and fluid consumption, for the control and management of security, alarm, fire detection, lightning protection, monitoring, access control, intruder alarm, sound and/or image recording and/or broadcasting, intercom, telephone, television, telecommunications and/or computer systems; home automation systems; home automation apparatus; bus interfaces for home automation systems; apparatus for programming and controlling home automation systems; electric control apparatus for openings and closures; electric control apparatus for openings and closures via power-line communication or radio frequency; apparatus for centralizing electric controls; connecting modules for smart devices; connecting modules for electric controls; control interface of electric apparatus; gateways for communication (electric apparatus); apparatus, devices and instruments for technical education and providing of technical training in electrical engineering and electronics and in the field of the assembly, installation, use and maintenance of electric apparatus and installations, including training panels containing electrical wiring, circuits, electrical equipment and/or apparatus, synoptical switchboards, simulation apparatus and installations; ready-to-assemble kits of parts for electrical or electronic apparatus or equipment, for technical instruction and training purposes; educational, instructional and training software, in particular in the form of discs, CD-ROMs, recorded databases, all being in the field of electrical apparatus for installations; assistance software for the design and production of electrical installations, for the determination of the nature, quality, characteristics and quantities of the apparatus and equipment necessary for that purpose, and of the regulations and standards applicable to the aforesaid apparatus and equipment, for drafting descriptions of the aforesaid apparatus and equipment, for calculating and updating the corresponding estimates, for ordering the aforesaid apparatus and equipment, for invoicing, for displaying cost prices, for sales, for site supervision; software for metering, analyzing and monitoring electrical network; computer software for plans for electrical installations; software for taking and processing orders, among other for electrical apparatus for installations, with calculations at the distributor's rates; customer file management software; search software facilitating access to digital information services on computer and data transmission networks and facilitating the searching and displaying of data and information (such as electronic catalogues and documents, product notes, certificates of conformity, study software, multimedia sales leaflets, wiring diagrams, software for receiving and managing orders with costing at distributor tariff), all being in the field of electrical apparatus for installations; software for marking conductors and components which form part of electrical equipment, in particular cables and apparatus in switch boxes and cabinets; electronic or optical displays for conductors and components of electrical equipment; computer software for creating labels for identifying modular electrical apparatus and circuits; software for studying distribution (electricity) panels, in particular for studying the nomenclature, installation drawings, cost price and installation costs thereof; software for stand-alone security lighting units, including software for the customized positioning and addressing thereof; servers, software and recorded databases relating to electrical apparatus for installations, in particular modular electrical apparatus and apparatus and installations for the control and management of home automation functions; electronic typesetters with keyboards for publishing labels; electric or electronic plotters for marking purposes; electronic publications (downloadable), including electronic newsletters and news bulletins, electronic newspapers, electronic magazines; computers; computer hardware; power supplies for computers; cables, cords and extenders for computers; magnetic recording media, acoustic discs; digital recording media; computer peripheral equipment; wireless computer peripherals; computer peripheral devices, namely microprocessors, printers for use with computers, monitors for computers, integrated circuits, mouse for computers, computer keyboards, computer memories; microchip (computer hardware); computer program for access or entry control; wide area network (WAN) router; network router; computer interfaces; downloadable software for monitoring and managing Internet

Protocol (IP) computer networking systems and IP computer networking equipment, namely, routers, switches, and access points having compatible firmware enabling remote monitoring and management, over the Internet; datacenter cabinets; server cabinets; cages for datacenters; virtual desktop infrastructure cabinets; LAN cabinets; LAN open frame racks; racks for virtual desktop infrastructure; measuring and control devices for air conditioning for data processing rooms; preconnectorized optical fiber for datacenters; access control devices for datacenters; optical fiber raceways; busbars for data centers; critical power monitors; cables for KVM; adapters for KVM; software for KVM management; KVM console; analog KVM; KVM over IP; secure KVM switch; automatic transfer switches; rack transfer switches; server racks accessories, namely cables, plugs; optic fiber patch panels for datacenters; cassettes and modules for datacenters racks; WIFI communication equipment; WIFI switches; WIFI adapters; WIFI routers; WIFI antennas; WIFI controllers; gateways for communication (electronic devices); PoE (Power over Ethernet) switches, adapters, controllers; Ethernet switches for industrial automation; AV Ethernet switches; network testers; cable testers; cables for multimedia apparatus and instruments; multimedia communication panels; multimedia active components; multimedia passive components; Ethernet switches; computer interconnection hardware, namely, switches, network bridges, and wireless network range extenders; wired and wireless computer network routers and communication devices, namely, mesh networking routers; wired computer network router; wired communication equipment; wireless computer network router; wireless communication equipment; optical fibre developers; wire feed-through panels; telephone apparatus; computer telephony equipment; transceivers for communicating via electric lines; modems for communicating via electric lines; plugs and sockets for communicating via electric lines; communication modules via electric lines; adapters for communicating via electric lines; lighting control apparatus; electric couplings for lighting installations; wireless lighting control apparatus; electrified rails for mounting spot lights; electronic display panels; interactive computer kiosks composed of computers, computer hardware and software affixed to stands for use in advertising and providing of information about the goods and services of others; emergency call devices for elderly or dependent people; alarm buttons for elderly or dependent people; emergency devices sending an alarm in the event of a fall for elderly or dependent people; mobile emergency call devices for the elderly or dependent with GPS location functionality; electronic trigger sending an alarm to the terminal with positioning and activity functionality; RFID/Zone ID generator for positioning functionalities; electronic devices reminding that a pill has to be taken and sending an alarm otherwise; electronic devices being nurse calls; voice communication systems (electronic devices) for nursing homes and hospitals; software for voice communication systems for nursing homes and hospitals; software for nursing house management; motion sensors with door alarm; door opening sensor; motion sensor for beds or chairs for elderly or dependent people; floor sensor; bed sensor; air quality sensors; fire sensors; temperature sensors; heat sensors; gas sensors; flood sensor; wired sensors; wireless sensors; bathroom scales; gateway to transmit radio alarms through IP or serial interfaces; radio range amplifier; bidirectional physical input/output to radio gateway; corridor light for displaying an alarm or a visual notification; safety signals [luminous]; signaling lamps; modular cases for hospital bed headboards; protective work clothing [for protection against accident or injury]; downloadable virtual goods, namely virtual apparatus and instruments for conducting, distributing, transforming, accumulating, regulating or controlling the distribution or use of electricity, all the aforesaid goods authenticated by non-fungible tokens (NFTs); downloadable virtual goods, namely virtual apparatus for recording, displaying, broadcasting, transmitting or reproduction of sound or images, all the aforesaid goods authenticated by non-fungible tokens (NFTs); downloadable virtual goods, namely medical apparatus and instruments authenticated by non-fungible tokens (NFTs); downloadable virtual goods, namely virtual lighting apparatus authenticated by non-fungible tokens (NFTs). in the name of LEGRAND FRANCE and LEGRAND SNC, a French “société anonyme” (joint-stock company) and a French “société en nom collectif” (general partnership) 128 avenue du Maréchal de Lattre-de-Tassigny, 87000 Limoges, France. Address for service: ADAMS & ADAMS, Lynnwood Bridge, 4 Daventry Street, Lynnwood Manor, Pretoria, SOUTH AFRICA

2023/16362 in Class 09: Scientific instruments and apparatus for use in the fields of academia, forensics, genetic screening, life science research, and medical research, namely, liquid handlers, live cell imagers, in vivo imagers, microplate readers and imagers, gamma and scintillation counters, and microplates; microscopes; spinning disk confocal

microscopes featuring electronic synchronization controls; synchronization control units for spinning disk confocal microscopes; confocal scanning systems for use with microscopes, consisting primarily of a confocal scanner, an illumination source, a charge coupled device detector, computer hardware and downloadable computer software for image acquisition; microarray scanners; radiometric detectors; automated liquid handling workstations for use in assay procedures, consisting primarily of computer-controlled robotic arms for laboratory purposes, mounted on a platform, used for pipetting liquids and for moving microplates and other objects from one location to another, and featuring computer software for operating liquid handling equipment; dispense heads for use in laboratory liquid handling devices; pipetting tips for use in liquid handling machines in the field of life science research; microplates; laboratory equipment and supplies, namely, microplates and reagents sold as a kit for use in scientific and pharmaceutical research; cellular screening laboratory apparatus for use in performing cell-based assays by means of luminescence and fluorescence detection; apparatus and instruments for research in laboratories and for analysis of microtiter plate based assays, namely, instruments comprising an imaging detector, a telecentric lens, illumination light source, emission and excitation filters and sample plate handling mechanics to automatically position sample plates in a well-defined position for imaging of the sample; computer workstation comprised of downloadable computer software for controlling instruments, measuring protocols, defining sample plates, measurement technologies and optical components, and storing measurement data in a database enabling the user to investigate the data and export it for further off-line analysis; laboratory apparatus, namely, cellular luminescence and fluorescence workstations consisting primarily of microtiter plate readers, automated liquid-flow and liquid-level control machines and instruments, computers and downloadable data analysis and reporting software for analyzing and reporting data obtained from the workstation; laboratory robots; downloadable computer software for use primarily in the field of pharmaceutical research, for analyzing fluorescence detection data; downloadable computer software for research purposes for viewing, measuring, and analyzing digital images, including color images and multispectral images, sold alone or as a system with computer hardware; laboratory equipment, namely, digital imaging systems comprising an illuminator, a digital camera, optical interference filters and a tunable filter, used for fluorescence optical imaging of samples, and downloadable computer software for use in operating the digital imaging system, or interpreting the images obtained thereby, computers, and adaptors for lenses and microscopes, all of the foregoing sold separately or as a unit for fluorescence optical imaging; laboratory equipment, namely, digital imaging systems comprising a digital camera and a tunable filter, used with microscopes or lenses to obtain images of microscopic and macroscopic samples, and downloadable computer software for use in operating the digital imaging system, controlling the microscopes or lenses, or interpreting the images obtained thereby, and adaptors for microscopes and lenses, all of the foregoing sold separately or as a unit for multispectral optical imaging; automatic laboratory equipment, namely, a robotic workstation consisting of robotic arms used for transferring, dispensing and diluting liquids in drug screening applications; laboratory apparatus and equipment, namely, automated light microscope system consisting primarily of a light microscope, computer hardware and downloadable computer software for optical imaging; downloadable computer software for application and database integration for scientific and pharmaceutical research and laboratory purposes; downloadable computer software for creating searchable databases of information and data for scientific and pharmaceutical research and laboratory purposes; downloadable computer software for the collection, editing, organizing, modifying, book marking, transmission, storage and sharing of data and information for scientific and pharmaceutical research and laboratory purposes; downloadable computer software for scientific and pharmaceutical research and laboratory purposes that provides real-time, integrated business management intelligence by combining information from various databases and presenting it in an easy-to-understand user interface; downloadable computer software to automate data warehousing for scientific and pharmaceutical research and laboratory purposes; downloadable computer software for providing and searching information in the field of chemistry, namely, information on chemicals, chemical structures, drawings, and properties, and related molecules; downloadable computer software for providing chemical supply information, namely, information about chemical supplier catalogs, chemical suppliers, chemical availability, chemical safety, chemical handling, and chemical procurement; downloadable computer programs for use in drawing biological pathways and instruction manuals sold therewith as a unit; downloadable computer programs for use in searching information and information integration in the fields of biology and chemistry, and instruction

manuals sold therewith as a unit; downloadable computer software for creating searchable databases of chemical reaction data; electronic databases in the field of biological and chemical research information recorded on computer media; downloadable mobile applications for creating, editing, transmitting, storing, collaborating, importing, and organizing data and information in the field of chemistry; downloadable mobile applications for creation, edit, transmission, storage, collaboration, importation, organization of data and information for scientific and pharmaceutical research and laboratory purposes; downloadable computer application software and downloadable software systems for the collection, editing, organizing, modifying, transmission, storage and sharing of data and information related to chemical research and analysis; downloadable computer programs for use in chemical structure drawing, molecular modeling and analysis, and searching information and information integration in the field of chemistry; downloadable computer software for creating searchable databases of information and data for scientific and pharmaceutical research and laboratory purposes; downloadable computer software for the collection, editing, organizing, modifying, book marking, transmission, storage and sharing of data and information for scientific and pharmaceutical research and laboratory purposes; downloadable computer software that provides real-time, integrated business management intelligence by combining information from various databases and presenting it in an easy-to-understand user interface for scientific and pharmaceutical research and laboratory purposes; downloadable computer software that provides web-based access to applications and services through a web operating system or internet portal for scientific and pharmaceutical research and laboratory purposes; downloadable computer software to automate data warehousing of documents for scientific and pharmaceutical research and laboratory purposes; downloadable computer search engine software for scientific and pharmaceutical research and laboratory purposes; scientific instruments and devices for the testing, screening and analysis of pharmaceuticals, for chemical screening and analysis of biological substances and for nucleic acid characterization; computer hardware and peripheral devices used in the development, testing, screening and analysis of pharmaceuticals, for chemical screening and analysis, for the development, testing, screening and analysis of biological substances and for nucleic acid characterization; downloadable computer software for operating and controlling automatic laboratory equipment used for transferring, dispensing and diluting liquids in drug screening applications; downloadable computer programs for use in robot manipulation; downloadable computer software for operating robots containing microplate readers, washers, and incubators for pharmaceutical laboratory use; semiconductor that performs chemical and biological material analysis; microfluidic devices and instruments used for the testing, screening and analysis of pharmaceuticals, for the testing, screening and analysis of biological substances and for nucleic acid characterization; laboratory equipment, namely, robot manipulators, laboratory consumable dispensers, laboratory sample conditioners being laboratory equipment, namely, incubators, stirrers, mixers, dispensers, and aspirators; laboratory measurement devices for measuring absorbency, weight and volume of pharmaceutical samples; laboratory pipettes; pipette tips, glassware and filters for use in laboratories; automatic laboratory equipment, namely, a robotic workstation consisting of robotic arms used for transferring, dispensing and diluting liquids in drug screening applications comprising automated pipetters configured to dispense fluids into and remove fluid from microtiter plates; computer-controlled laboratory robots; downloadable computer software for medical services, namely, medical diagnostic software and medical testing software for medical laboratory data management, patient record keeping, tracking, recording, monitoring, analyzing and reporting medical data obtained related to newborn screenings; downloadable computer software used by research scientists to acquire, manage and analyze molecular biology and life science data and information; downloadable computer software, namely, software for use in database management in the field of bioinformatics; optical imaging devices, namely, a fluorescence imaging system comprised of computer imaging hardware, a computer, monitor and downloadable imaging software for use therewith, not for medical use; downloadable computer software used to acquire, store, archive, retrieve, track, coordinate and analyze internal light images for medical research and scientific purposes; downloadable computer software for scientific analysis of genetic sequences; downloadable software in the field of DNA research for acquisition, analysis and processing of scientific, diagnostic, pharmaceutical, biological, biotechnological and veterinary data; laboratory robots for moving microplates between storage racks and laboratory equipment, namely, laboratory readers, washers, dispensers and incubators; downloadable computer software for controlling robots that move microplates between

storage racks and laboratory equipment, namely, laboratory readers, washers, dispensers and incubators; user manuals sold as a unit with the foregoing goods; Computer software platforms, downloadable, for scientific analysis in the field of nucleic acid analysis; Computer software platforms, recorded, for scientific analysis in the field of nucleic acid analysis; Laboratory apparatus and computer systems for use in protein purification; Laboratory apparatus and instruments for extracting DNA; Laboratory apparatus and instruments for extracting nucleic acid; Laboratory chemical reactors; Laboratory devices for detecting genetic sequences; Laboratory equipment and supplies, namely, test tubes; Magnetic separators for scientific use; Medical laboratory research instruments for DNA analysis; Medical laboratory research instruments for nucleic acid isolation; Research laboratory analyzers for measuring, testing and analyzing blood and other bodily fluids; Scientific instrumentation for measuring proteins; Scientific instruments, namely, electronic analyzers for testing and analyzing chemical and biological substances for the presence, absence, or quantity of biologics; Scientific instruments used in laboratory sample preparation for magnetic particle separation, namely, magnetic beads, magnetic particle concentrators, magnetic particle analyzers, magnetic particle separators; scientific instruments used in laboratories for preparation of samples using magnetic particles for chemical, biological or physical analysis or purification, namely, functional magnetic beads, namely, chemically activated beads and beads modified with specific antibodies, magnetic purification beads, buffer-solutions, solvents, suspension agents, sample preparation kits and cartridges, laboratory apparatuses and instruments for preparation of samples using magnetic beads for chemical, biological or physical analysis or purification, namely, functional magnetic beads for binding analytes for chemical, biological or physical analysis, namely, chemically activated beads and beads modified with specific antibodies, magnetic purification beads for chemical, biological or physical purification of analytes, buffer-solutions, solvents, suspension agents, sample preparation kits; Testing kits comprising a microarray and DNA array for chromosome analysis for medical diagnostic or monitoring purposes or medical research purposes; chromosome testing kits comprising a microarray for use in in vitro fertilization (IVF) clinics or medical research laboratories; kits comprising a microarray for testing chromosome content for use in assisted reproductive technologies for medical purposes or medical research purposes; Laboratory apparatus and instruments for homogenizing, mixing, disrupting, and shaking samples; homogenizers, high-shear homogenizers, hand-held homogenizers, high-power homogenizers, programmable homogenizers, industrial homogenizers, multi-sample homogenizers, automated/robotic homogenizers, ultrasonic cell disrupters, bead-mill homogenizers, tissue grinders, glass homogenizers, parts and accessories, namely, probes, tubes, and beads for use with laboratory apparatus and instruments, homogenizer probes/tips, homogenizer containers/vessels, homogenizer sample tubes, homogenizer motor-stand assemblies, homogenizer sealed-chamber assemblies, homogenizer beads, homogenizer quick-connect couplings, homogenizer external speed controls, and homogenizer vessel-restraint disks; Laboratory apparatus and instruments for use with cell culture applications for cell-based assays; Laboratory apparatus and instruments for performing chromogenic assays; Laboratory apparatus and instruments for identifying, managing, tracking and analyzing cell cultures; apparatus and instruments for scientific research used to acquire cell data; Apparatus and instruments for scientific research used to acquire cell data, namely, automated cell counter, bright field cell counter, fluorescence cell counter, cell imaging system that quantifies cells in samples, cell analyzer, cytometer, microscope, as well as parts designed to be used therewith; Measuring devices for measuring pressure, temperature, chemical compound concentrations and optical signals, such as fluorescence and chemiluminescence for diagnostic sample testing, not for medical use; sensors and detectors for testing UV fluorescence and chemiluminescence for diagnostic sample testing, not for medical use; laboratory apparatus for recording, transmission or reproduction of diagnostic data, sound or images, namely, cameras, microscopes, photometers, microplate photometers, ELISA (enzyme-linked immunosorbent assay) readers, photomultipliers and microplate readers; laboratory software for recording, transmitting and reproducing diagnostic data, sound and images; biochips for research or scientific purposes; plates having multi-well arrays that can be used in chemical analysis, biological analysis or patterning for scientific, laboratory or medical research use; Devices for measuring chemical levels, in particular antigen levels, in water or water-based solutions for use in diagnostic sample testing, for detecting allergies and not for medical purposes; Collections of DNA and gene sequences for research and reference purposes provided as DNA microarrays and DNA chips; Imaging apparatus and software for detecting and studying tumors for scientific research and laboratory purposes; imaging apparatus and

software for detecting and studying in vivo disease models for scientific research and laboratory purposes; imaging apparatus for use in the field of assessment of bioengineered tissues and organs for scientific research and laboratory purposes; Instruments for testing, processing or detecting biological samples for laboratory purposes, namely, an automatic analytical device for quantifying levels of 1,25-dihydroxyvitamin D; computer software for use in analyzing and managing biological data; Microplate readers; measuring devices, namely, fluorometers; downloadable and recorded computer software for use in medical decision support systems; downloadable and recorded computer software for calculation and assessment of health risks and risks for genetic disorders; Scientific, research, navigation, surveying, photographic, cinematographic, audiovisual, optical, weighing, measuring, signalling, detecting, testing, inspecting, life-saving and teaching apparatus and instruments; apparatus and instruments for conducting, switching, transforming, accumulating, regulating or controlling the distribution or use of electricity; apparatus and instruments for recording, transmitting, reproducing or processing sound, images or data; recorded and downloadable media, computer software, blank digital or analogue recording and storage media; mechanisms for coin-operated apparatus; cash registers, calculating devices; computers and computer peripheral devices; diving suits, divers' masks, ear plugs for divers, nose clips for divers and swimmers, gloves for divers, breathing apparatus for underwater swimming; fire-extinguishing apparatus. in the name of REVVITY, INC., a Massachusetts corporation 940 Winter Street, Waltham, Massachusetts 02451, United States of America.
