limiters, electric contacts, electric collectors, electric conductors, electric connectors, electric controllers, electric inductors, electric power supplies, electricity distribution boards and boxes, electricity distribution consoles, electricity switchboards and switchboxes; software for persons in charge of troubleshooting and maintenance of programmable controllers, software for cardiac vessel analysis, including heart vessel analysis, also with calculation functions with regard to blood vessels, software for medical patient-monitoring equipment, software for receiving, processing, transmitting and displaying data, software for developing customized programs for asset allocation; Computer software for use on-line which enables office equipment dealers to submit applications, manage portfolios and communicate with the company; Computer software for accessing information relating to mortgages and insurance, computer software for collecting data relating to vital signs, computer software for analysing electrical systems and electronic instruction manuals sold as a set, computer software for those employed in financial institutions for determining the financial investments of clients and processing the sale of the determined investments; Computer software for obtaining information on the risk of flooding in real estate, computer software for the development of graphical user interfaces and the display of data, computer software for calculating mortgage payments, computer software for regulating and managing services for the maintenance of vehicle fleets, computer software for utilising and accessing business computer services; Computer software for clients, for obtaining information relating to lease portfolios, computer software for radiological information systems for use by radiologists and radiology departments, computer software for managing databases containing employee and patient information for filing and patient monitoring purposes, computer software installed on and for use with PCs and medical monitoring equipment for graphical user interfaces; Computer software for sending encrypted and compressed data on radio messaging systems (transport), computer software for providing access to websites allowing purchasers and sellers to conduct business electronically, and computer software for underground navigation, namely navigation of deep probe assemblies for oil and gas drilling and drilling assemblies for routing underground installations; Electronic, nuclear, industrial and laboratory apparatus and instruments, and testing, measuring, calculating and checking apparatus and instruments; Goods for the production and distribution of electricity and goods for protection against surges, namely lightning conductors, bus bars; Capacitors; Lighting contactors; Controllers

and input/output devices; Fuses; Lighting controls; Switch boxes, LEDs, namely light-emitting diodes, voltage regulators for electric power, surge protectors, surge arresters, voltmeters, electrical circuit boards, relays and timers, solenoids and limit switches, manual full-voltage starters, reduced-voltage starters, electrical switches and isolators, splitters for circuit boards and pumping panels, circuit breakers and isolators, transformers, electrical circuit and electrical lighting boards, electric wires, cables, cords and conductors, electrical wiring and accessories, lightning conductors, electricity meters, wattmeters, earthing resistors, humidity and temperature sensors; Industrial calibration sensors, push buttons, control centres for motors and engines and electric controllers and voltage regulators included in this class; Software and software programs for industrial, research, and medical use; Apparatus for electrophoresis; Chromatography columns and pumps; Microfabrication by laser radiation or by particle radiation; Apparatus for bioinformatics systems; Apparatus for scintillation; Imaging apparatus for radioactive and luminescent emissions; integrated synthesis and purification systems; Laser based optical systems for digital imaging; Glassware for use in a laboratory; Vials and microvials; Microtitre plates; Computer software for hospital operating room management; Computer software for critical care information management; Industrial process control software; Computer software programs and program manuals sold as a unit for use in factory management; Graphical user interface based computer programs for controlling machines in industrial automation applications; Software for creating graphics displays and editing dynamic data interfaces for realtime graphics applications for industrial and business applications; Communications software for connecting computer network users; Software for plastic injection molding; Software for control, monitoring, simulation, communications, data logging and collection, and factory automation; Software to integrate manufacturing machine operations, control processes, provide data for visualization, track problems and generate production reports; Packaged software for use in the operation and programming of grinding machines in the manufacturing industry; Industrial process control hardware, namely, computer monitors; Laptop computers, ethernet cards and cables; Computer networking hardware, memory cards; Microchips; Microprocessors; Computer network hubs, switches and routers, computer accessories, display devices and terminals; Computer whiteboards; System boards and processors; Call control, operator interface, gage interfaces and data collectors;

Control and manufacturing applications, namely, statistical process control, data collection, distributed numerical control; Digital signal processing products and systems, namely industrial automation controls and programmable logic controllers; Adaptive control product in the form of an external controller for optimising the rough cut and semi-rough cut performances of machine tools; Distributed and remote input/output hardware devices, input/output modules, interface modules, power supplies and mounting hardware; Intrusion and burglar alarm systems; Security apparatus, Namely logic programming computers, Control panels, Electronic anti-theft alarms, Electronic window breakage sensors, electronic vibration sensors, magnetic contacts for security systems, Electronic switch plates, Electronic motion sensors for alarm systems, Electronic motion sensitive switches, Hardwire sirens, Audio loudspeakers, Electronic controllers; Access control and alarm surveillance systems; Fire, heat and smoke detecting and alarm units; Computer card operated access control systems; Card readers, card encoders, and encoded cards for use with card operated access control systems; Camcorders; Video object recognizers; Video object trackers; Video license plate readers; Video alarm verifiers; Video face recognizers; Video vehicle recognizers; Video traffic detectors; Video access door controllers; Video intrusion detectors; Processing hardware and software that analyzes digital video images to automatically extract, record and report intelligence, and remote video monitoring systems for security and surveillance applications; Central video monitors; Video recorders; Cameras; Closed circuit video systems; Closed circuit video system comprising one or more cameras, and a camera housing; Short range, wireless, radio frequency transceivers; Power line transceivers; Communication control hardware for operating closed circuit camera; Communication control hardware, namely keypad controllers, matrix switchers, multiplexers, digital video recorders, integrated pan-tilt-zoom domes, remote video controllers, receivers, electronic alarm, management controls and triggers, and video transmission devices sold separately or as part of a system for operating closed circuit cameras; Personal digital assistant devices configured for use by real estate professionals; Communications interface devices for use with personal digital assistant devices; Fiber-optic transmission systems, namely, fiber optic transmitters, receivers and transceivers used in the transmission of video, audio, and data signals over optical fiber; Switches, electric; Electro mechanical locks; Magnetic cards for locksmithery, access control, attendance detection, alarms and security

systems; Electronic portable equipment for the reception, control, storage, manipulation, display and transmission of data and triggering of electronic locks; Electronic access cards and readers and encoders therefore; Magnetic access cards and readers and encoders therefore; Smart access cards and readers and encoders therefore; Proximity cards and readers and encoders therefore; Electronic keys and readers and encoders therefor; Bar code access cards and readers, encoders, card lamination apparatus; Access keypads; Radio frequency tracking tags; Tracking and control system comprising one or more radio frequency tags, transceivers, and sensors used to determine and monitor the location and movement of tangible assets, inventory and individuals; Infrared sensors; Hardware and software for infrastructure management and controlling infrastructure access systems and components therefor, namely, control panels, access card readers and equipment and systems for video imaging, video surveillance, recording of digital hard drives, network transmission and remote access; Servers for storing digital videos on a network, applications for monitoring and controlling access, monitoring alarms and security, computer software and hardware for controlling and operating access and security systems made up of locking systems, doors, access and identification devices and secure containers in the form of boxes for storing keys; Monitoring equipment sold individually or as parts or in a set, including systems consisting of one or more surveillance cameras, concealed cameras, closed-circuit television cameras, camera housings, camera holders, lenses, video monitors, video recorders, digital recorders, video recording media, video switchers, control panels, digital control keypads, control levers, interface apparatus for alarms and access control equipment, transceivers, receivers, transmitters, signal processors, multiplexers, matrix switchers, controllers, control panel housings, switch boxes, transformers, switches, splitters, coaxial cables, connectors, motion sensors, microphones and speakers; Computer user interface software and control software for managing security, fire and access systems; Locks, electric; Hand-held electronic computer and communication hardware for receiving, controlling, storing, manipulating, displaying and transmitting data for operating electronic locks; Electronic key fobs, readers and encoders; Data processing software and computer hardware; Power supplies, namely batteries, rectifiers/voltage/current regulators and transformers; Control panels - namely, electronic apparatuses adapted to electrically monitor a pre-determined activity and activate a burglar alarm;

Siren speakers and electronic siren controllers, namely tone generators and amplifiers for sirens; Computer software to control communication hardware for operating and controlling closed circuit cameras; Switch units incorporating magnetically actuated reed switches for use in burglary and fire sensing alarm systems, in industrial position sensing apparatus, in revolution counters, in equipment cabinet safety interlock systems, in industrial position controlling apparatus, in electrical cables and in pump and valve controlling apparatus and home security alarm systems; Electrical and electronic checking apparatus for screening individuals, baggage, and cargo for the presence of particular substances; Electrical and electronic checking apparatus for screening individuals, baggage, and cargo for the presence of explosives and/or narcotics; Apparatus for detecting presence of explosives and other contraband; Time or condition sensing apparatus for initiating and controlling regeneration or washing cycles for water treatment equipment; Bioreactors for culturing cells; Portable analysis instruments, namely probes with recording devices for converting microprocessor data for the measurement of organic and inorganic substances in water; Filters and filter housings for laboratory use; Membrane filters for laboratory use; Silt density measuring device; Deionization units for laboratory use, filters and filter housings for laboratory use; Fluid separation apparatus for laboratory use; Membrane for laboratory use; Fluid flow control devices, namely, pumps, valves, flow meters and regulators for laboratory use; Ozone monitors; Laboratory equipment, namely, porous microtiter plates for use in cell biology and other life science applications; Electronic controls for water treatment and processing, namely equipment for treating industrial and commercial water supply systems, water boilers, water cooling systems, water cooling circuits and closed water supply systems, systems for processing paper and pulp, fuel processing systems and systems for processing metals in order to analyse the system's chemistry, determine the correct treatment programme, apply the required treatment and monitor the effectiveness of the treatment; Computer software for data management in the water treatment and pulp and paper fields; Electronic controllers used for processing information in the water treatment and pulp and paper fields; Apparatus for use in industrial water systems to measure and control ph and conductivity; Apparatus for feeding chemical to an industrial, commercial or municipal water system in measured amounts; Electronic test apparatus for use in water treatment; Laboratory testing equipment-namely, deposition and corrosion rate

testers; Mobile laboratory equipped with equipment and instrumentation to monitor and measure pH, conductivity, and chromate concentration of industrial and domestic waters, to conduct inorganic analysis of water and to conduct microbiological testing of water; Electronic and electrochemical products, namely, fuel cells; Equipment for converting photoelectric radiation into electrical energy, Namely, Photovoltaic solar modules, photovoltaic solar hybrid modules, Electronical sensors for measuring solar radiation, Photocell; Apparatus for converting electronic radiation to electrical energy, namely photovoltaic solar modules, systems, components, and all associated balance of system components; Printers, Laser beam printers, Inkjet printers, Multifunction and multipurpose printers, Parts for all of the foregoing; Electronic portable devices for the wireless reception and/or transmission of data, enabling the user to keep track of or manage personal information and enabling transmission and reception of voice communications, videos and images; Software for the synchronization of data between a remote station or unit and a fixed or remote station or unit and software which enables and provides one-way and two-way wireless connectivity to data; Portable digital electronic devices and software related thereto; portable electronic devices for wireless data reception and/or transmission; Software for the redirection of messages, e-mail, and/or other data from a personal computer or a server to one or more handheld electronic devices; Computer software and programs for managing and operating wireless devices; Telecommunications devices; Computer software for accessing, searching, indexing and retrieving information and data from global computer networks and global communication networks, and for browsing and navigating through web sites on said networks; Computer software for sending and receiving short messages and electronic mail and for filtering non-text information from the data; Portable electronic devices for voice, video, data and image communication; Computer game software for mobile handsets; electronic game software for mobile telephone receivers; Computer software packages; Batteries, dry cells, rechargeable batteries, battery chargers, storage batteries, solar cells, fuel cells; Charcoal and carbon electrodes for dry cell batteries, wiring apparatus, electrical connectors, electrical cables, electrical ducts, floor ducts adapted for housing electrical cables, ballasts (for discharge lamps), under-carpet wiring systems, dimmer switches, circuit breakers, magnetic contactors and starters, circuit protectors, switch gears, electric junction boxes, appliance switches, outlet sockets, electrical plugs, insulating materials, electric time

switches, other wiring devices; Signalling apparatus and instruments, Video door telephone apparatus, Interphone systems, Electric door chimes, Intercommunication apparatus, Fire alarms, Gas alarms, Anti-theft warning apparatus, Emergency portable interphones; Machines and Acoustic apparatus, Thermionic valves (radio), Tape players/recorders, radio cassette recorders, portable tape players, Compact disc players/recorders, Mini disc players/recorders, MiniDisc decks, DVD (digital versatile disc) audio players/recorders, Secure digital players and recorders, Secure digital cards, Loudspeakers, Tuners, Amplifiers, Stereo component systems; Disk readers, Graphic equalizers, Radio alarm clocks, Integrated circuit (IC) recorders, Digital sound processors, Headphones, Communications head sets, Microphones, cassette player/recorders, Pre-recorded compact disc software, Electric megaphones, Language laboratories, Car stereos, Public address systems, Mixing consoles, Devices for cleaning audio equipment, namely devices for cleaning magnetic heads; Audio cables, video cables, other audio devices; Audio-visual machines and apparatus, Television receivers, Cathode ray tube display screens, Cathode ray tubes, Image capture tubes, Plasma television receivers, Plasma display, LCD television receivers, Liquid crystal display monitors, Television receivers combined with video tape recorders; Combined television receiver with disk player, Antennas, Tuners for satellite broadcasting, Tuners for televisions, Internet terminals, Video viewers, Videocassette recorders, Camcorders, Camcorders, Video printers, Laserdisc players, Video CD (compact disc) players, video CD (compact disc) software, DVD (digital versatile disc) video players/recorders; Colour video systems for large-scale display, CATV (cable television) systems, Hard disk drives, Video imagers, Optical-electronic display, Multi-use electronic display systems, closed circuit video systems, DVD software (digital versatile disc), Television cameras, Video switches; Non-linear editing systems, editing controllers, DVD (digital versatile disc) authoring systems, light-emitting diode displays, other audio-visual machines; Optical-disc equipment and apparatus; Optical disk drives, Optical disc recorders, Optical disc players, Optical disc changers, Optical disk cartridges, Optical disc recording systems; Communication machines and apparatus, facsimile transceivers, transceivers, telephones, cellular mobile telephones, cases for cellular mobile telephones, telephone answering machines, private automatic branch exchange systems, receivers for global positioning systems, radiotelephones, marine radars, radio pagers,

mobile communication systems, multi-channel access radio systems, electric traffic information signs, videoconferencing systems, private mobile telephone systems, local network systems, AV codecs (coders-decoders), car navigation systems (road guidance systems), electronic systems for road toll collection, GPS antennas (global positioning systems); Checking (supervision) apparatus and instruments, communication and monitoring systems for apartment buildings, intruder detection systems, automated systems for monitoring and controlling functions within buildings, electric multi-layer security apparatus; Automatic controlling machines and instruments, electric distribution boards, traffic-signal control apparatus, bus location system, ultrasonic vehicle detectors, information and telecommunications networks for managing road traffic, light dimmers, daylight switches, inverters, programmable controllers, transformers, cubicles, home electricity generation system, power capacitors; Data processing equipment; Computers and computer peripheral devices, word processors, computer software (recorded), image scanners for personal computers, printers, PC (personal computer) cards, computer keyboards, mice (data processing equipment), CD-ROM (compact disc with read-only memory) drives, floppy disk drives, card readers/writers, barcode readers, time recorders, portable data terminals, point-of-sale systems, data collection terminals, personal digital assistants, DVD-RAM/ROM (digital versatile disc - random-access memory/read-only memory) drives, CAD/CAM (computer-aided design/computer-aided manufacturing) systems, hard disk drives, electronic calculators, uninterrupted power sources for computers/communication/broadcasting; External storage media, Video cassettes, Cleaning heads, D-VHS (video systems for household use), other kinds of computer peripherals; Video cassettes, Audio tapes, Floppy disks, Optical discs, Minidisks, DVDs (digital versatile discs), Integrated circuit memory cards; Weighing and measuring apparatus and instruments, thermoluminescence dosimetry systems, portable x-ray dosimeters, electronic counters, ammeters, power consumption meters, clamp meters, electric leakage meters, electric insulation meters, thermometers, measurement system processors, multi-circuit type electric power monitor, micro-precision measurements, body fat monitor, step counter, audio/video analysers, oscilloscopes, modulators, voltmeters, distortion meters, other measuring apparatus; Sensors, photo sensor, temperature sensors, position sensors, angular speed sensors, rotation sensors, angle sensors, dew sensors other sensors; Electrical components, Luminescent diodes, Liquid crystals,

LCD modules; Magnetrons, Diodes, Transistors [electronic], Temperature controlling apparatus, Integrated circuits, Audio-video circuit boards, Single-chip microcomputers, Microphone cartridges for electric condensers, Half-tone image processors, Thermal print heads, Magnetic heads, Permanent magnets, Electric couplings, Relay, Display components, Solid-state lasers, Charge-coupled device (CCD device), Image sensors; Film capacitors, membrane units for oxygen enrichment, electric tuner units, high frequency units, coin validation units, note validation units, magnetic card readers/writers, voltage controlled oscillators, phase-locked loop synthesiser modules, wireless communication module units, optical transmission components, printed wiring boards, speaker components, electricity supplies; Alternating current (AC) adapters, focusing magnets, Inductors (coils), Capacitors for electrical appliances, Filters for electrical signals, Electricity transformers, Deflection yokes, Thermistor, Varistors, Piezoelectric ceramic components, Acousto-optical devices, Resistors, Potentiometer, Encoder, Printing units, Hybrid integrated circuits; Switching components, heat sealable wiring boards, panels with transparent keys, Electro luminescence elements, Remote control unit, Magnetic resistance elements, thermal disconnection; Data processing equipment, in particular for financial applications; Computer operating programs; Computer hardware and software, in particular for the development, maintenance and use of local and wide area computer networks; Systems for reading memory cards and systems for reading data in memories including integrated circuit memories and banking card memories; Teller machines (Automated -) [ATM]; Accounting machines; Coded cards including magnetic cards and cards including integrated circuits, in particular, for financial applications; Apparatus for reading cards, printing apparatus including printing apparatus for data processing systems and financial transaction systems; Machines for banking establishments; Encoders and decoders; Modems; Magnetic coded card readers, electronic data carrier cards, magnetic coded card readers, electronic data carrier card readers, electronic encryption units, computer hardware, computer terminals, computer software for use in the financial services, banking and telecommunications industries; Electrical and electronic goods, Namely calculating machines, Pocket planners, Alarms; Banking cards including printed banking cards and banking cards using magnetic memories and integrated circuit memories; Banking card, credit cards, debit cards including such cards having integrated circuits and microprocessors; Memory

cards; Automatic cash dispensers; Equipment for data processing and computers including cards equipped with microprocessors and integrated circuits; Computer hardware in the form of integrated circuit cards and card readers containing transponders and other proximity payment devices; Mouse mats; Parts and fittings for transmission, distribution and control of electricity; Induction devices, devices for transferring electricity, devices for monitoring and regulating electricity, electricity metering instruments, electrical protective devices, switch panels, switch panel devices, wiring devices and supplies; Liquid monitoring devices, namely flow meters, manostats, automatic sequential time switches, switches and electric controls; Electric devices for killing insects, Audio amplifiers for keyboards, external memories for musical instruments; Systems for the management of data and the safekeeping of files relating to anaesthesia; Gradient coils, namely magnetic gradient coils for magnetic resonance imaging in the name of Comite International Olympique also known as the International Olympic Committee, a Swiss Association, Chateau de Vidy, 1007, Lausanne, , Switzerland Address for service: SPOOR AND FISHER, Messrs. Spoor & Fisher, Building No. 13, Highgrove Office Park, Oak Avenue, Centurion, Gauteng (P O Box 454, PRETORIA, 0001, South Africa)

ART & DESIGN OF THE OLYMPIC GAMES
