2019/32661 in Class 09: Scientific, research. navigation, surveying, photographic, cinematographic, audiovisual, optical, weighing, measuring, signalling, detecting, testing, inspecting, life-saving and teaching apparatus and instruments; apparatus and instruments for conducting, switching, transforming, accumulating, regulating or controlling the distribution or use of electricity; apparatus and instruments for recording, transmitting, reproducing or processing sound, images or data; recorded and downloadable media, computer software, blank digital or analogue recording and storage media: mechanisms for coin-operated apparatus; cash registers, calculating devices; computers and computer peripheral devices; diving suits, divers' masks, ear plugs for divers, nose clips for divers and swimmers, gloves for divers, breathing apparatus for underwater swimming; fire-extinguishing apparatus; protective helmets for sports; glasses, sunglasses, sports goggles; computer game software; fuel distribution equipment, namely electric fuel-level gauges, control valves for regulating gas flow and fuel lines; operating software for calibrated fuel pumps for refuelling of land vehicles, marine vehicles and aircraft; operating software for flow control panels for refuelling of land vehicles, marine vehicles and aircraft; operating software for fuel lines and pump nozzles for refuelling of land vehicles, marine vehicles and aircraft; gas meters; on-board and roadside signalling and communication systems, train inspection systems, crossing notification systems, apparatus for electric control of switching; GPS tracking and monitoring systems for the transit and railway industries; capacitors; circuit breakers; circuit-breaker patch boards: circuit closers: contact breakers; commutators; contactors; current rectifiers; current limiters: electric contacts: electric collectors: electric conductors: electric connectors: electric controllers; electric inductors; electric power supply systems; distribution boards [electricity]; branch boxes [electricity]; electrical distribution consoles; electrical switchboards and switchboxes; software for troubleshooting and maintenance of programmable controllers; software for cardiac vessel analysis, including heart vessel analysis, also with calculation functions with regard to blood vessels; software for medical patient-monitoring equipment; software for receiving, processing, transmitting and displaying data; software for developing customized programs for asset allocation; software for use on line enabling vendors of office equipment to place orders, to manage portfolios and communicate with the company; software for accessing mortgage and insurance information; software for collecting data concerning

vital signs; software for analysing electrical systems and electronic instruction manuals sold as a unit therewith: software for employees of financial institutions used for assessing customers' financial investments and processing the sale of the identified investments; software for obtaining information on the risk of flooding with regard to real property; software for developing graphic user interfaces and displaying data; software for calculating mortgage payments; software for controlling and managing vehicle fleet maintenance services: software for using and accessing commercial computer services; software used by clients to obtain information regarding lease portfolios: software for a radiology information system for radiologists and radiology departments; software for managing databases containing information on employees and patients for archiving purposes and patient monitoring; software installed on and used with PCs and medical monitoring equipment for graphic user interfaces; software for sending encrypted and compressed data to radio-paging (transport) systems; software for providing access to web sites so that buyers and sellers can carry out business transactions by electronic means; software for subterranean navigation, namely navigation of the assembly of a depth probe for oil drilling and drilling assemblies so as to route subterranean installations; electronic, nuclear, industrial and laboratory, testing, measuring, calculating and monitoring instruments and apparatus; electrical products, electricity production and distribution products and voltage surge protection products, namely lightning conductors, armored rods; switches for lighting; input/output controls and devices: fuses: controls for lighting: switch boxes: LEDs, namely light-emitting diodes; voltage regulators for electric power; voltage surge protectors; voltage surge limiters; voltmeters; electrical circuit boards; relays and timers; solenoids and limit switches; manual full-voltage starters; reduced-voltage starters; electric switches and disconnecting switches; splitters for circuit boards and pumping panels; circuit breakers and disconnecting switches; transformers; electric circuit and electric lighting boards; electric wires; cables; cords and conductors; electric wiring; lightning conductors: electricity meters: watt meters: grounding resistances; humidity and temperature sensors; industrial calibration sensors, push buttons, engine and motor control centres and their electric controls and voltage regulators included in this class; computer programs and software for medical use, industrial use and for research; electrophoresis apparatus; chromatography columns and pumps; apparatus for particle or laser rays microfabrication; apparatus for bio-informatics systems; scintillation

apparatus; imaging apparatus for radioactive and luminescent emissions: integrated synthesis and purification systems: oligonucleotide-producing apparatus; optical laser systems for digital imaging; glassware for laboratories: vials and micro-vials: microtiter plates; software for managing hospital operating rooms; software for intensive care information management: software for industrial operation control; software and manuals therefor sold as unit for factory management; graphic interface computer programs for controlling machines in industrial automation applications; software for creating graphic presentations and editing dynamic data interfaces for real-time graphic applications for industrial and commercial use; communication software for connecting computer network users; software for plastic injection moulding; software for controlling, monitoring, simulating, communicating, recording and collecting data and for factory automation; software for integration of manufacturing machine operations, process control, supply of data for displaying, problem monitoring and production report generation; software packages for operating and programming grinders in the manufacturing industry: computer hardware for monitoring industrial processes, namely computer monitors; portable computers, Ethernet cards and cables; computer networking hardware, memory cards; microchips; microprocessors; computer network hubs, switches and routers, computer accessories, displaying devices and terminals; computer whiteboards; processors and system cards; call controllers, operator interfaces, reference interfaces and data collectors: applications for manufacture and control. namely for statistical process control, data collection. direct digital control; document management systems; digital signal processing products and systems, namely, industrial automation controls and programmable logic controllers; adaptive control product in the form of an external controller for optimizing rough and semi-rough cutting performance of machine tools; wired and remote input/output electric equipment; input/output modules; interface modules; electricity supplies; assembly equipment; anti-theft and burglar alarm systems: logic programming computers for security systems; control panels for security systems; electronic burglar detectors; electronic glassbreakage detectors: electronic vibration detectors: magnetic contacts for security systems; electronic switch plates for security systems; electronic motion detectors for alarm systems; electronic motionsensitive switches; fixed connection sirens for security systems; audio loudspeakers for security systems; electronic navigation systems for security

systems; access control and alarm monitoring systems: fire, heat and smoke alarms and detectors: computer cards access control systems: card readers, card encoders and encoded cards for cardoperated access control systems; video cameras; video devices for object recognition; video devices for object tracking; video devices for reading license plates: video devices for checking alarms: video devices for facial recognition; video devices for vehicle recognition; video devices for traffic detection: video devices for access door control: video devices for burglar detection; processing hardware or software used for analysing digital video images for automatically extracting, recording and reporting information automatically, and remote video monitoring systems for security and surveillance applications: central video monitors: video recorders; apparatus for shooting and filming; closed-circuit video systems; closed-circuit video systems consisting of one or several cameras and camera housings; wireless, short-range and radiofrequency transceivers; transceivers for electrical lines; communication monitoring equipment for operating closed-circuit cameras; communication monitoring equipment, namely numeric-pad controls, matrix switching devices, multiplexers, digital video recorders, integrated swinging panoramic zoom dome cameras, remote video controllers, receivers, electronic alarms, video transmission devices; personal digital assistants (PDAs) configured for use by real estate professionals; communication interfacing devices for personal digital assistants (PDAs); fibre-optic transmission systems, namely fibre-optic transmitters, receivers and transceivers for transmission of video signals, audio signals and data via optical fibres; electric switches; electromechanical locking devices; magnetic cards for locks, access control, presence control, alarms and security systems; portable electronic hardware for reception, control, storage, handling, display and transmission of data and for actuating electronic locks; electronic access cards and readers and encoders thereof; magnetic access cards and readers and encoders thereof; memory access cards and readers and encoders thereof; proximity cards; proximity cards readers: proximity cards encoders: electronic keys and readers and encoders thereof; barcode access cards and readers, encoders and laminators thereof: access keypads: radio-frequency tracking tags; tracking and control systems consisting of one or several radio-frequency beacons, detectors and transceivers for determining and checking the location and movements of tangible assets, stocks and individuals; infrared sensors; control boards; access card readers; video

imaging equipment and systems; video surveillance equipment and systems: digital hard disk recording equipment and systems; network transmission equipment and systems; remote access equipment and systems: networked digital video storage servers; applications for surveillance and access control; applications for alarm and security monitoring; computer software and hardware for monitoring and operating access and security systems comprising locking systems, doors, access and identification devices and security cases in the form of boxes for securing keys; surveillance systems sold separately or as components or in the form of sets comprising one or several surveillance cameras, hidden cameras, closed-circuit television cameras, camera housings, camera stands, lenses, video monitors, video recorders, digital recorders, video recording media, video switches; surveillance systems sold separately or as components or in the form of sets comprising control panels, numerical pad controls, joysticks; surveillance systems sold separately or as components or in the form of sets comprising interface apparatus for alarms and access control equipment, transceivers, receivers, transmitters, signal processors, multiplexers, matrix switches, controls, control panel casings, switch housings, transformers, switches, splitters, coaxial cables, connectors, motion detectors, microphones and loudspeakers; user interface software and control software for management of access, security and fire-extinguishing systems; electric locks; portable electronic communication and computer equipment for data reception, control, storage, handling, display and transmission for operating electronic locking devices; electronic key holders. readers and encoders: data processing computer software and hardware; electric power supplies, namely batteries, rectifiers/regulators of current/voltage and transformers; control panels, namely electronic apparatus designed for electronically monitoring a predefined activity and for activating an anti-theft alarm; loudspeakers for sirens and electronic siren controls, namely ringer tone generators and amplifiers for sirens; software for controlling communication equipment for operating and controlling closed-circuit cameras: switching devices integrating magnetically triggered blade switches for anti-theft alarm systems and fire alarm systems, integrated into industrial tracking apparatus, revolution counters, security lock systems for equipment cabinets, industrial position-monitoring apparatus, electric cables and pump and valve monitoring apparatus and home security alarm systems; electric and electronic checking apparatus for detecting the presence of certain substances on individuals, in luggage and freight; electric and

electronic checking apparatus for detecting the presence of explosives and/or narcotics on individuals, in luggage and freight; apparatus for detecting the presence of explosives and other contraband: timers or sensitive apparatus for detecting changes in conditions for launching and monitoring regeneration or washing cycles for water treatment equipment; control valves for water treatment and filtering equipment; bioreactors for cell culture; portable analysis instruments, namely a probe with a recorder for data conversion equipped with microprocessors for measuring organic and inorganic products in water; filters and filter housings for laboratories: membrane filters for laboratories: silt density measuring devices; deionization devices for laboratories, filters and filter housings for laboratories; liquid separating apparatus for laboratories; membranes for laboratories; liquid flow control devices, namely pumps, valves, flowmeters and regulators for laboratories; ozone monitoring instruments; laboratory equipment, namely porous titration microplates for cellular biology and other applications in life sciences; electronic controls for treatment of industrial and commercial water supply systems; electronic controls for treatment of boiler water systems; electronic controls for treatment of water cooling systems; electronic controls for treatment of cooling water systems; electronic controls for treatment of closed water-supply systems; electronic controls for treatment of systems for paper and pulp treatment; electronic controls for fuel treatment systems; electronic controls for metal treatment systems for analysing the chemistry of the system, determining the proper treatment program, applying the desired treatment and monitoring the effectiveness of the treatment: data management software in the field of paper, pulp and water treatment; electronic controls for data processing in the field of paper, pulp and water treatment; apparatus for industrial water-supply systems for measuring and checking pH and conductivity; apparatus for supplying an industrial, commercial or municipal water supply system with measured quantities of chemicals; electronic testing apparatus for water treatment; laboratory testing equipment, namely apparatus for testing deposit levels and corrosion speed: equipment and instruments for mobile laboratory equipped for measuring and monitoring pH, conductivity and concentration of chromate in domestic and industrial waters: equipment and instruments for mobile laboratory equipped for carrying out inorganic and microbiological water testing; electronic and electrochemical products, namely fuel cells; apparatus for converting photo-electric radiation to electrical energy, namely, photovoltaic solar

modules, hybrid photovoltaic solar modules, electronic sensors for measuring solar radiation. photo-cells: apparatus for converting electronic radiation to electric energy, namely photovoltaic solar modules, systems and components and all related system components; printers, laser printers, ink-jet printers, multi-function and multi-purpose printers, parts of all the aforesaid goods; portable electronic devices for wireless reception and/or transmission of audio and video data with integrated memory; software for synchronization of data between a remote unit or station and a fixed unit or station, and software providing a one-way and/or two-way wireless connection to data; portable digital electronic apparatus and software related thereto; portable electronic devices for wireless data reception and/or transmission: software for reorientation of messages, electronic mail and/or other data from a personal computer or a server towards one or several portable electronic devices; computer software and programs for wireless device operation and management; telecommunication devices; software for accessing, searching, indexing and retrieving information and data from global computer networks and global communication networks, and for navigation on the aforesaid networks websites: software for sending and receiving short messages and electronic mail and for filtering non-text information from data; portable electronic devices for voice, video, data and image communications; computer game software for mobile telephone receivers; electronic game software for mobile telephone receivers; software packages; batteries, dry cells and batteries, rechargeable batteries, battery chargers, storage batteries, solar cells and batteries, fuel cells: carbon electrodes for dry batteries; wiring apparatus; electric cables; electric ducts; floor ducts specially designed for housing electric cables; ballast (for discharge lamps); under carpet wiring systems; code lighting-switches; magnetic contactors and starter switches; circuit protectors; switching devices; electric connecting boxes; device switches; output jacks; plugs (electric); electric timers; other wiring devices; signalling apparatus and instruments, video intercoms, intercom systems, electric door chimes, intercoms, fire alarms, gas-leak alarms, anti-theft alarms. portable emergency intercoms; acoustic machines and apparatus; radios; tape recorders/players; radio cassette recorders; portable tape players; compact disc recorders/players; minidisc recorders/players; minidisc decks consoles; DVD (digital versatile disc) audio recorders/players; secured digital recorders/players; secured digital cards; loudspeakers; tuners; amplifiers; stereo component systems; disc readers; graphic equalizers; radio

alarm clocks; integrated circuit recorders; digital audio processing devices: earphones: headphones: microphones: cassette recorders/players: software for compact discs (pre-recorded); electric megaphones: language laboratories: audio systems for cars; public address systems; audio mixers; audio equipment cleaning equipment, namely magnetic head cleaning equipment; audio cables, video cables, other audio machines; audiovisual machines and apparatus; television sets; cathode ray tube display devices; cathode ray tubes; image pick-up tubes; plasma television sets; plasma displays; LCD (liquid crystal display) television sets; liquid crystal display monitors: television sets combined with video tape recorders; television sets combined with disc players; antennas; tuners for satellite broadcasting: television tuners: Internet terminals; video projectors; video cassette recorders; camcorders; video printers; laser disc players; video CD (compact disc) players; software for video CD (compact disc); video recorders/players for DVDs; colour video systems for large-scale display; cable television systems; hard disk units; video imaging devices; electric optical display boards; multipurpose electric display systems; closed-circuit video equipment systems; software for DVDs; television cameras; video switches; non-linear editing systems; editing controllers; DVD creation systems; light emitting diodes (LED) displays; optical disc machines and apparatus; optical disc units, optical disc recorders, optical disc players, optical disc changers, optical disc cartridges, optical disc recording systems; communication apparatus and machines; facsimile transceivers; transceivers; telephones: cellular mobile telephones: cases for cellular mobile telephones: telephone answering machines; private auto-switch systems; global positioning system receivers; radiotelephones; marine radars; radio-paging receivers; mobile communication systems; multi-channel access radio systems; electric panels for traffic information; videoconferencing systems; private portable telephone systems; local network systems; AV codecs (coder-decoders); navigation systems for cars (road guidance systems); electronic systems for road toll collection; GPS (global positioning system) antennas: checking (supervision) apparatus and instruments; communication and surveillance systems for apartment buildings; intruder detection systems: automated systems for surveillance and control of functions within buildings; electric multilayer security apparatus; checking (supervision) apparatus and instruments, communication and surveillance systems for apartment buildings, intruder detection systems, automated systems for surveillance and control of functions within buildings,

electric multi-layer security apparatus; automatic control machines and instruments: electric distribution boards: road signal control apparatus: bus location systems; ultrasound vehicle detectors; information and telecommunication networks for road traffic management; light dimmers; light switches; inverters; programmable control systems; electrical enclosures: domestic electricity production systems; power capacitors; data processing equipment; computers and computer peripherals; word processors; software (recorded); image scanners for personal computers; PC (personal computer) cards; computer keyboards; mouse (data processing equipment): CD-ROM (compact discread only memory) units; diskette units; card reading/writing systems; barcode readers; time recorders; portable data terminals; point-of-sale systems; data collection terminals; personal digital assistants (PDAs); DVD-RAM/ROM (digital versatile disc-random access memory / read only memory) units; CAD/CAM (computer-aided design/computeraided manufacturing) systems; electronic calculators; uninterrupted power supplies for computers / communication / broadcasting; external storage devices; video cassettes; cleaning heads; D-VHS (video data home systems); other computer peripherals; video tapes; audio cassettes; diskettes; optical discs; mini-discs; DVDs (digital versatile discs); integrated circuit memory cards; weighing and measuring apparatus and instruments; thermoluminescent dosimetry systems; portable xray dosimeters; electronic meters; ammeters; electricity consumption meters; grip measuring devices; electric apparatus for measuring leakance; electric insulation meters: thermometers: measuring system processors: electric multi-circuit sector voltage monitors; micro-precision measuring devices; pacers; audio/video analysers; oscilloscopes: modulators: distortion meters: sensors, light-sensitive sensors, thermometric sensors, position sensors, angular velocity sensors, rotation sensors, angle sensors, dew point sensors, other sensors; electric components; light emitting diodes; liquid crystals; liquid crystal display modules; magnetrons; transistors; semi-conductor storage devices; one chip micro-computers; cartridges for electric condenser microphones: thermostats: integrated circuits; grey-scale image processors; thermal printing heads; magnetic heads; permanent magnets; relays; display components; semiconductor lasers; charge coupling devices (CCD device); image detectors; film capacitors; overoxygenation membrane units; electric tuner units; high-frequency units; coin validation units; note validation units; magnetic card reading/writing devices; voltage-controlled oscillators; phase-locking

circuit synthesizing modules; wireless communication module units: optical transmission components: printed wiring boards: loudspeaker components; electricity supplies; AC (alternating current) adaptors: focusing magnets: inductors (coils); capacitors for electric apparatus; electric signal filters; deflection coils; thermistors; varistors; piezoelectric ceramic components: acoustic-optical components; resistances; potentiometers; printing units; hybrid integrated circuits; switching components; heat-welding wiring boards; transparent touch panels; electroluminescent components; remote control units; magnetic resistance elements: thermal disconnects: data processing equipment, in particular for financial applications; operating system programs; computer hardware and software, in particular for local and wide-range computer networks development, maintenance and use; systems for reading memory cards and systems for reading stored data including integrated circuit memories and bank card memories; automatic ticket dispensers; accounting machines; encoded cards, including magnetic cards and integrated circuit cards, in particular for financial applications; card readers, printing apparatus, including printing apparatus for data processing systems and financial transaction systems; machines for banking institutions; encoders and decoders; modems; encoded magnetic cards; electronic data carrier cards; encoded magnetic cards readers; electronic data cards reader; electronic encryption systems; computer hardware; computer terminals; software used in financial services, in the banking and telecommunication industries: electric and electronic products, namely calculating machines, pocket planners, alarms; bank cards, including printed bank cards and bank cards with magnetic memory and with integrated circuit memory; bank cards, credit cards, debit cards, including such cards equipped with integrated circuits and microprocessors; memory cards (smart cards); automated teller machines (ATMs); data processing equipment and computers including cards equipped with microprocessors and integrated circuits; computer hardware in the form of integrated circuit cards and card readers containing transponders and other proximity payment devices: mouse pads; machines and machine systems, including parts and accessories for transmission, distribution and control of electricity: induction devices; electrical displacement devices; electricity control and regulation devices; electricity measuring instruments; electrical protection devices; switchboards; switchboard apparatus; wiring devices; liquid control devices, namely, flowmeters, manostats, sequential timers, electric switches and

controls; audio amplifiers for keyboards; external memories for musical instruments: systems for managing data and preserving archives in the field of anaesthesia; gradient coils, namely magnetic gradient coils for magnetic resonance imaging: alarm devices for tire pressure; pressure gauges for vehicle tires; rubber testing machines; smart watches, in the name of Comité International Olympique, an association duly organized and in good standing under the Laws of Switzerland, Château de Vidv. 1007. Lausanne. Switzerland. Address for service: SPOOR & FISHER, Messrs. Spoor & Fisher, 11 Byls Bridge Boulevard, Building No. 14. Highveld Ext 73. Centurion, Pretoria, 0157.
